    bonus_type: BonusType      # enhancement, competence, resistance, luck, insight
    bonus_target: BonusTarget  # ability_score, saving_throw, skill, ac, attack, dam-
age
    bonus_value: int

    def on_equip(self, character):
        character.add_bonus(self.bonus_target, self.bonus_type, self.bonus_value,
