

D&D 3.5e Wondrous Items — Comprehensive Implementation Plan

Source: Dungeon Master’s Guide 3.5e, Pages 246–265

Status: Pre-Implementation Planning

Previous Sprint: Ring Sprint 3 (91% complete), Rod Implementation Plan

Date: May 2026

WONDROUS ITEMS OVERVIEW

What Are Wondrous Items?

Wondrous items are the largest and most diverse category of magic items in D&D 3.5e. They encompass everything that doesn’t fall neatly into weapons, armor, shields, rings, rods, staves, scrolls, wands, or potions. They range from simple stat-boosting worn items to complex multi-ability artifacts with unique activation mechanics.

Total Item Count

Category	Price Range	Item Count (incl. variants)
Minor	≤ 15,000 gp	~80 items
Medium	15,001–60,000 gp	~50 items
Combined Minor+Medium	≤ 60,000 gp	~130 items
Major (out of scope)	> 60,000 gp	~40 items

Note: Many items have multiple variants (e.g., Cloak of Resistance +1 through +5, Bag of Holding Types I–IV, Ioun Stones with 12+ subtypes). Each variant counts separately in the totals above.

Equipment Slots Used

Slot	# of Base Items	Examples
Feet (Boots)	8	Boots of Speed, Slippers of Spider Climbing
Shoulders (Cloaks)	10+ variants	Cloak of Resistance, Cloak of Displacement
Hands (Gloves/Gauntlets)	5 base (8 w/ variants)	Gauntlets of Ogre Power, Gloves of Dexterity
Head (Headgear)	12+ base	Hat of Disguise, Helm of Telepathy
Face (Eyes/Goggles)	5	Eyes of the Eagle, Goggles of Night
Throat (Neck)	12+ base (20+ variants)	Amulet of Natural Armor, Necklace of Fireballs
Waist (Belts)	2 base (4 variants)	Belt of Giant Strength, Monk's Belt
Arms/Wrists (Bracers)	3 base (10+ variants)	Bracers of Armor, Bracers of Archery
Torso/Body (Robes)	8	Robe of the Archmagi, Robe of Eyes
Slotless	60+	Bag of Holding, Ioun Stones, Figurines

Item Categories by Function

Category	Count	Description
Ability Score Enhancement	19	+2/+4/+6 to ability scores
Armor Class Enhancement	13	Natural armor, deflection, miss chance
Saving Throw Enhancement	6	Resistance bonuses, immunities
Movement Enhancement	10	Speed, flight, teleportation, special movement
Stealth & Detection	12	Skill bonuses, vision modes, concealment
Skill Enhancement	15	Competence bonuses, special abilities
Storage & Utility	15	Extradimensional containers, tools
Combat Items	12	Offensive abilities, projectiles
Summoning & Transformation	10	Creature summoning, shapechanging
Spell Recall	9	Pearl of Power (1st–9th level)
Ion Stones	16	Slotless orbiting stones with varied effects
Protection Items	8	Damage/spell resistance, immunities
Divination & Knowledge	8	True seeing, telepathy, scrying
Special Robes & Vestments	7	Multi-ability worn items

Wondrous Item Physical Properties (General)

- **Weight:** Varies widely (negligible for dust/gems, 1–5 lbs for worn items, up to 100 lbs for carpets/boats)
- **Material:** Varies (cloth, leather, metal, crystal, etc.)
- **Activation:** Most require standard action; some are continuous/passive
- **Usability:** Most usable by any class unless specified (some robes require specific alignment/class)

- **Charges:** Most are permanent (exceptions: Necklace of Fireballs, Robe of Bones, Robe of Useful Items — single-use components)
- **Caster Level:** Varies per item; determines DC for dispelling
- **Aura:** Varies per item; determines school of magic

Random Generation Tables (DMG Table 7-18)

- **Periapt of Proof Against Poison:** Immunity to all poison. Continuous.
- **Periapt of Wisdom (+2/+4/+6):** Enhancement bonus to Wisdom. Continuous.
- **Phylactery of Faithfulness:** Warning to cleric if contemplated action would negatively affect alignment/standing with deity. Continuous awareness.
- **Phylactery of Undead Turning:** +4 bonus on turning checks and turning damage dice. Continuous.
- **Scarab of Protection:** +3 resistance bonus on saving throws, absorbs 12 energy drain/death effects (then crumbles). Continuous.

BELTS & WAIST ITEMS (Slot: Waist)

#	Item	Price	Category	CL	Aura
1	Belt of Giant Strength +4	16,000 gp	Medium	8th	Moderate transmutation
2	Belt of Giant Strength +6	36,000 gp	Medium	8th	Moderate transmutation
3	Monk's Belt	13,000 gp	Medium	10th	Moderate transmutation

Detailed Abilities:

- **Belt of Giant Strength (+4/+6):** Enhancement bonus to Strength score. Continuous.
- Note: +2 Strength is covered by Gauntlets of Ogre Power (Hands slot).

- **Monk's Belt:** Wearer treated as a monk for purposes of AC bonus (Wis bonus to AC, +1 per 5 levels) and unarmed damage. If wearer IS a monk, functions as if 5 levels higher for AC and unarmed damage. Continuous.

ARMS/WRISTS (Bracers, Armbands) (Slot: Arms)

#	Item	Price	Category	CL	Aura
1	Bracers of Archery, Lesser	5,000 gp	Minor	4th	Faint transmutation
2	Bracers of Archery, Greater	25,000 gp	Medium	8th	Moderate transmutation
3	Bracers of Armor +1	1,000 gp	Minor	7th	Moderate conjuration
4	Bracers of Armor +2	4,000 gp	Minor	7th	Moderate conjuration
5	Bracers of Armor +3	9,000 gp	Minor	7th	Moderate conjuration
6	Bracers of Armor +4	16,000 gp	Medium	7th	Moderate conjuration
7	Bracers of Armor +5	25,000 gp	Medium	7th	Moderate conjuration
8	Bracers of Armor +6	36,000 gp	Medium	7th	Moderate conjuration
9	Bracers of Armor +7	49,000 gp	Medium	7th	Moderate conjuration
10	Bracers of Armor +8	64,000 gp	Medium	7th	Moderate conjuration

Detailed Abilities:

- **Bracers of Archery, Lesser:** +1 competence bonus on attack rolls with bows. Continuous. Proficiency with all bows granted.
- **Bracers of Archery, Greater:** +2 competence bonus on attack rolls with bows, +1 competence bonus on damage. Continuous. Proficiency with all bows granted.

- **Bracers of Armor (+1 to +8):** Armor bonus to AC (as if wearing armor of that enhancement). Does not stack with actual worn armor. Continuous. Can be enchanted with armor special abilities at +3 or higher.

BODY ITEMS (Vestments, Robes) (Slot: Torso)

#	Item	Price	Category	CL	Aura
1	Robe of the Archmagi	75,000 gp	Major	14th	Strong varied
2	Robe of Blending	8,400 gp	Medium	10th	Moderate transmutation
3	Robe of Bones	2,400 gp	Minor	6th	Moderate necromancy
4	Robe of Eyes	120,000 gp	Major	11th	Moderate divination
5	Robe of Scintillating Colors	27,000 gp	Medium	11th	Moderate illusion
6	Robe of Stars	58,000 gp	Medium	15th	Strong varied
7	Robe of Useful Items	7,000 gp	Medium	9th	Moderate transmutation
8	Vestment, Druid's	3,750 gp	Minor	1st	Faint transmutation

Detailed Abilities:

- **Robe of the Archmagi:** +5 armor bonus to AC, SR 18, +4 resistance bonus to saves, 50% arcane spell failure reduced to 0%. Alignment-specific (white=good, gray=neutral, black=evil). Major item — outside primary scope.
- **Robe of Blending:** Disguise self at will. If wearer is detected (true seeing, etc.), the robe changes form to match a mundane garment.
- **Robe of Bones:** 12 embroidered undead figures that can be detached and thrown to become actual undead. Each figure animates into a specific undead creature. Single-use patches.
- Default patches: Small skeleton (×2), Medium skeleton (×2), Small zombie (×2), Medium zombie (×2), wolf skeleton, heavy horse skeleton, troll skeleton, ogre zombie.
- **Robe of Eyes:** All-around vision (360°), +10 competence bonus on Search/Spot, can't be flanked, darkvision 120 ft, see invisibility continuously. Vulnerable to light and daylight spells (blindness).

- **Robe of Scintillating Colors:** 30 ft radius pattern effect (hypnotic pattern, DC 16 Will). Uses 1 round of duration per activation, 10 rounds/day. Creatures within radius must save or be dazed.
 - **Robe of Stars:** +1 luck bonus to saves. Six star patches — each can be thrown as a magic missile dealing 5d4 force damage. 1/day can step into the Astral Plane (as astral projection). Patches do not regenerate.
 - **Robe of Useful Items:** Covered in cloth patches that can be detached and become real items. Default patches + additional random patches.
 - Default: dagger, bullseye lantern, mirror, pole, hempen rope, sack.
 - Random (4d4 additional): bag of 100 gp, coffer (silver, 500 gp), door (iron, up to 10×10 ft), gems (10×100 gp), ladder (24 ft), mule, pit (10×10×10 ft), potion of cure serious wounds, rowboat, scroll of spell (1st–3rd), war dogs (pair), window.
 - **Druid's Vestment:** Wearer gains one extra use of wild shape per day. Continuous.
-

SLOTLESS ITEMS (Miscellaneous)

This is the largest category. Slotless items do not occupy any equipment slot and can be used simultaneously with any other items.

Storage & Containers

#	Item	Price	Category	CL	Capacity/Effect
1	Bag of Holding Type I	2,500 gp	Minor	9th	250 lbs / 30 cu ft, weighs 15 lbs
2	Bag of Holding Type II	5,000 gp	Minor	9th	500 lbs / 70 cu ft, weighs 25 lbs
3	Bag of Holding Type III	7,400 gp	Minor	9th	1,000 lbs / 150 cu ft, weighs 35 lbs
4	Bag of Holding Type IV	10,000 gp	Minor	9th	1,500 lbs / 250 cu ft, weighs 60 lbs
5	Efficient Quiver (Quiver of Ehlonna)	1,800 gp	Minor	9th	60 arrows, 18 javelins, 6 bows/staves
6	Handy Haversack	2,000 gp	Minor	9th	120 lbs total, always retrieves desired item
7	Portable Hole	20,000 gp	Medium	12th	10×10×10 ft extradimensional space

Implementation Notes:

- Bag of Holding placed inside Bag of Holding/Portable Hole → rift to Astral Plane (both destroyed, nearby creatures pulled in).
- Portable Hole placed inside Bag of Holding → gate to Astral Plane.
- Bag of Holding placed inside Portable Hole → rift to Astral Plane.
- Handy Haversack always produces the desired item on top (standard action to retrieve becomes move action).

Summoning Items

#	Item	Price	Category	CL	Effect
1	Bag of Tricks (Gray)	900 gp	Minor	3rd	Pull fuzzy ball → random animal
2	Bag of Tricks (Rust)	3,000 gp	Minor	5th	Pull fuzzy ball → random animal
3	Bag of Tricks (Tan)	6,900 gp	Minor	9th	Pull fuzzy ball → random animal
4	Elemental Gem (Air)	2,250 gp	Minor	11th	Summon Large Air Elemental
5	Elemental Gem (Earth)	2,250 gp	Minor	11th	Summon Large Earth Elemental
6	Elemental Gem (Fire)	2,250 gp	Minor	11th	Summon Large Fire Elemental

7	Horn of Valhalla (Bronze)	40,000 gp	Medium	13th	Summons 2d4+2 barbarians (4th level), requires proficiency with medium armor
8	Horn of Valhalla (Iron)	75,000 gp	Major	13th	Summons 2d4+2 barbarians (5th

#	Item	Price	Category	CL	Effect
					level), requires Martial Weapon Proficiency
9	Pipes of Haunting	6,500 gp	Minor	4th	Fear effect in 30-ft radius, DC 13 Will
10	Pipes of Pain	12,000 gp	Medium	—	2d4 damage + cause fear (DC 14) in 30-ft area
11	Pipes of Sounding	1,800 gp	Minor	2nd	Ghost sound + sound burst (1d8, DC 13)
12	Pipes of the Sewers	1,150 gp	Minor	2nd	Summons/controls rats (as summon swarm)

Ioun Stones (Slotless, Orbiting)

All Ioun Stones: Small crystalline stones that orbit the owner's head at a distance of 1d3 feet. They have AC 24, 10 HP, hardness 5.

#	Stone Type	Price	Category	Effect
1	Clear Spindle	4,000 gp	Minor	Sustains creature without food or water
2	Dusty Rose Prism	5,000 gp	Medium	+1 insight bonus to AC
3	Deep Red Sphere	8,000 gp	Medium	+2 enhancement bonus to Dexterity
4	Incandescent Blue Sphere	8,000 gp	Medium	+2 enhancement bonus to Wisdom
5	Pale Blue Rhomboid	8,000 gp	Medium	+2 enhancement bonus to Strength
6	Pink Rhomboid	8,000 gp	Medium	+2 enhancement bonus to Constitution
7	Pink and Green Sphere	8,000 gp	Medium	+2 enhancement bonus to Charisma
8	Scarlet and Blue Sphere	8,000 gp	Medium	+2 enhancement bonus to Intelligence
9	Dark Blue Rhomboid	10,000 gp	Medium	Alertness feat (when not already possessing it)
10	Vibrant Purple Prism	36,000 gp	Medium	Stores three levels of spells (as ring of spell storing)
11	Iridescent Spindle	18,000 gp	Medium	Sustains creature without air
12	Pale Lavender Ellipsoid	20,000 gp	Medium	Absorbs spells of 4th level or

#	Stone Type	Price	Category	Effect
				lower (absorbs 20 levels, then burns out)
13	Pearly White Spindle	20,000 gp	Medium	Regenerate 1 HP per 10 minutes (not true regeneration)
14	Orange Prism	30,000 gp	Medium	+1 caster level
15	Pale Green Prism	30,000 gp	Medium	+1 competence bonus on attack rolls, saves, skill checks, ability checks
16	Lavender and Green Ellipsoid	40,000 gp	Medium	Absorbs spells of 8th level or lower (absorbs 50 levels, then burns out)

Implementation Notes:

- Ioun Stones do NOT occupy an equipment slot but only one stone of each type can be active at a time.
- Ability score enhancement Ioun Stones DO stack with other enhancement bonuses from different sources, but NOT with same-typed bonuses from other items (e.g., Pale Blue Rhomboid Str +2 does not stack with Gauntlets of Ogre Power Str +2 — both are enhancement bonuses).
- Ioun Stones can be grabbed by a target in combat (ranged touch attack vs AC 24) or struck (AC 24, 10 HP, hardness 5).
- A “burned out” or dull gray Ioun Stone still orbits but confers no benefit.

Pearls of Power (Slotless)

#	Pearl Level	Price	Category
1	Pearl of Power (1st)	1,000 gp	Minor
2	Pearl of Power (2nd)	4,000 gp	Minor
3	Pearl of Power (3rd)	9,000 gp	Minor
4	Pearl of Power (4th)	16,000 gp	Medium
5	Pearl of Power (5th)	25,000 gp	Medium
6	Pearl of Power (6th)	36,000 gp	Medium
7	Pearl of Power (7th)	49,000 gp	Medium
8	Pearl of Power (8th)	64,000 gp	Medium
9	Pearl of Power (9th)	81,000 gp	Major
10	Pearl of Power (Two Spells)	70,000 gp	Major

Effect: Once per day, recall any one spell of the designated level that was already cast. Standard action, must have originally prepared/known the spell.

Miscellaneous Slotless

#	Item	Price	Category	CL	Effect
1	Bottle of Air	7,250 gp	Minor	7th	Unlimited air supply when uncorked underwater

7	Elixir of Vision	250 gp	Minor	2nd	+10 competence on Spot for 1 hour

CATEGORIZATION BY FUNCTION**1. ABILITY SCORE ENHANCEMENT (19 items)**

+2 Variants (Minor — 4,000 gp each):

Item	Slot	Ability	Price
Gauntlets of Ogre Power	Hands	Str +2	4,000 gp
Gloves of Dexterity +2	Hands	Dex +2	4,000 gp
Amulet of Health +2	Throat	Con +2	4,000 gp
Headband of Intellect +2	Head	Int +2	4,000 gp
Periapt of Wisdom +2	Throat	Wis +2	4,000 gp
Cloak of Charisma +2	Shoulders	Cha +2	4,000 gp

+4 Variants (Medium — 16,000 gp each):

Item	Slot	Ability	Price
Belt of Giant Strength +4	Waist	Str +4	16,000 gp
Gloves of Dexterity +4	Hands	Dex +4	16,000 gp
Amulet of Health +4	Throat	Con +4	16,000 gp
Headband of Intellect +4	Head	Int +4	16,000 gp
Periapt of Wisdom +4	Throat	Wis +4	16,000 gp
Cloak of Charisma +4	Shoulders	Cha +4	16,000 gp

+6 Variants (Medium — 36,000 gp each):

Item	Slot	Ability	Price
Belt of Giant Strength +6	Waist	Str +6	36,000 gp
Gloves of Dexterity +6	Hands	Dex +6	36,000 gp
Amulet of Health +6	Throat	Con +6	36,000 gp
Headband of Intellect +6	Head	Int +6	36,000 gp
Periapt of Wisdom +6	Throat	Wis +6	36,000 gp
Cloak of Charisma +6	Shoulders	Cha +6	36,000 gp

Low Stone Ability Variants (Medium — 8,000 gp each):

Stone	Ability	Price
Pale Blue Rhomboid	Str +2	8,000 gp
Deep Red Sphere	Dex +2	8,000 gp
Pink Rhomboid	Con +2	8,000 gp
Scarlet and Blue Sphere	Int +2	8,000 gp
Incandescent Blue Sphere	Wis +2	8,000 gp
Pink and Green Sphere	Cha +2	8,000 gp

Implementation: Simple passive enhancement bonus to designated ability score. Enhancement bonuses from different items targeting the same ability score do NOT stack (highest applies). These are the simplest items to implement.

2. ARMOR CLASS ENHANCEMENT (13 items)

Item	AC Type	Bonus	Price
Amulet of Natural Armor +1	Natural armor (enhancement)	+1	2,000 gp
Amulet of Natural Armor +2	Natural armor (enhancement)	+2	8,000 gp
Amulet of Natural Armor +3	Natural armor (enhancement)	+3	18,000 gp
Amulet of Natural Armor +4	Natural armor (enhancement)	+4	32,000 gp
Amulet of Natural Armor +5	Natural armor (enhancement)	+5	50,000 gp
Bracers of Armor +1 to +8	Armor bonus	+1 to +8	1,000–64,000 gp
Cloak of Displacement, Minor	Miss chance	20%	24,000 gp
Cloak of Displacement, Major	Miss chance	50%	50,000 gp
Dusty Rose Prism (Ioun Stone)	Insight to AC	+1	5,000 gp

Implementation:

- Natural armor enhancement bonus → stacks with actual natural armor but not with other enhancement bonuses to natural armor.
 - Bracers of Armor → armor bonus, does not stack with worn armor.
 - Displacement → miss chance mechanic (separate from AC).
 - Insight bonus → stacks with everything (Dusty Rose Prism).
-

3. SAVING THROW ENHANCEMENT (6+ items)

Item	Save Affected	Bonus	Price
Cloak of Resistance +1	All saves	+1 resistance	1,000 gp
Cloak of Resistance +2	All saves	+2 resistance	4,000 gp
Cloak of Resistance +3	All saves	+3 resistance	9,000 gp
Cloak of Resistance +4	All saves	+4 resistance	16,000 gp
Cloak of Resistance +5	All saves	+5 resistance	25,000 gp
Scarab of Protection	All saves	+3 resistance + death ward (12 charges)	38,000 gp
Pale Green Prism (Ioun Stone)	All saves + attacks + skills	+1 competence	30,000 gp
Robe of Stars	All saves	+1 luck	58,000 gp

Implementation: Resistance bonus tracking on all saves. Multiple resistance bonuses do NOT stack (highest applies). Competence and luck bonuses stack with resistance bonuses.

4. MOVEMENT ENHANCEMENT (10 items)

Item	Movement Type	Effect	Price
Boots of Elvenkind	Stealth movement	+5 Move Silently	2,500 gp
Boots of Levitation	Vertical	Levitate at will	7,500 gp
Boots of Speed	Speed	Haste 10 rds/day	12,000 gp
Boots of Striding and Springing	Land + jump	+10 ft speed, +5 Jump	5,500 gp
Boots of Teleportation	Instant	Teleport 3/day	49,000 gp
Boots of the Winterlands	Snow/ice	+10 ft in snow, endure cold	2,500 gp
Slippers of Spider Climbing	Climb	Spider climb at will	4,800 gp
Winged Boots	Flight	Fly 3/day (60 ft, good)	16,000 gp
Wings of Flying	Flight	Fly at will (60 ft, good)	54,000 gp
Carpet of Flying	Flight	Fly 40 ft, capacity varies	20,000–60,000 gp
Horseshoes of Speed	Mount speed	+30 ft to horse speed	3,000 gp
Horseshoes of a Zephyr	Mount movement	Walk on air/water, no tracks	6,000 gp

Implementation: Speed modifiers, flight mechanics, teleportation, special movement modes. Requires movement system integration.

5. STEALTH & DETECTION (12 items)

Item	Type	Effect	Price
Boots of Elvenkind	Skill	+5 Move Silently	2,500 gp
Cloak of Elvenkind	Skill	+5 Hide	2,500 gp
Dust of Appearance	Reveal	Reveals invisible (10-ft radius)	1,800 gp
Dust of Disappearance	Conceal	Greater invisibility 2d6 rounds	3,500 gp
Dust of Tracelessness	Conceal	No tracks, +5 DC to track	250 gp
Eyes of the Eagle	Skill	+5 Spot	2,500 gp
Goggles of Night	Vision	Darkvision 60 ft	2,500 gp
Hat of Disguise	Illusion	Disguise self at will	1,800 gp
Amulet of Proof Against Detection	Ward	Immune to divination targeting wearer	35,000 gp
Lantern of Revealing	Reveal	Invisibility purge 25-ft radius	30,000 gp
Robe of Blending	Illusion	Disguise self at will	8,400 gp
Robe of Eyes	Vision	360° vision, see invisible, darkvision 120	120,000 gp

Implementation: Skill bonuses, vision mode toggles, invisibility/revelation mechanics.

6. SKILL ENHANCEMENT (15 items)

Item	Skill(s)	Bonus	Price
Circlet of Persuasion	Charisma-based checks	+3 competence	4,500 gp
Eyes of the Eagle	Spot	+5 competence	2,500 gp
Goggles of Minute Seeing	Search	+5 competence	1,250 gp
Gloves of Swimming and Climbing	Swim, Climb	+5 competence	6,250 gp
Lens of Detection	Search, Survival (tracking)	+5 competence	3,500 gp
Vest of Escape	Escape Artist, Open Lock	+6/+4 competence	5,200 gp
Cloak of the Bat	Hide	+5 competence	26,000 gp
Boots of Elvenkind	Move Silently	+5 competence	2,500 gp
Cloak of Elvenkind	Hide	+5 competence	2,500 gp
Boots of Striding and Springing	Jump	+5 competence	5,500 gp

Implementation: Competence bonus modifiers to specific skills. All competence bonuses from different sources to the same skill do NOT stack (highest applies).

7. STORAGE & UTILITY (15 items)

See **Slotless Items — Storage & Containers** section above for full details.

Key Implementation Challenges:

- Weight reduction calculations (bag contents weigh less than capacity)
- Extradimensional space interactions (bag in bag → Astral rift)
- Retrieval mechanics (Haversack always finds right item)
- Volume vs weight tracking

8. COMBAT ITEMS (12 items)

See **Slotless Items — Combat Items** section above for full details.

Key Implementation Challenges:

- Fireball bead targeting and AoE damage

- Force effects (Bead of Force, Cube of Force)
- Binding/grapple mechanics (Iron Bands)
- Charge tracking (Cube of Force)

9. SUMMONING & TRANSFORMATION (10 items)

See **Slotless Items — Summoning Items** section above for full details.

Key Implementation Challenges:

- Random animal tables (Bag of Tricks)
- Duration tracking per figurine
- Creature stat blocks for summoned entities
- Weekly/monthly reset tracking

10. SPELL RECALL (9 items)

Pearl of Power — see Pearls of Power section above.

Implementation: Interface with spellcasting system. Recall a spent spell slot of the designated level. Standard action, 1/day per pearl.

11. PROTECTION ITEMS (8 items)

Item	Protection Type	Effect	Price
Brooch of Shielding	Spell	Absorbs magic missiles (101 points)	1,500 gp
Cube of Frost Resistance	Cold	Absorbs cold damage, 10-ft radius	27,000 gp
Periapt of Health	Disease	Immunity to all disease	7,500 gp
Periapt of Proof Against Poison	Poison	Immunity to all poison	27,000 gp
Scarab of Protection	Death/drain	Absorbs 12 negative levels/death effects	38,000 gp
Necklace of Adaptation	Environment	Breathe in any environment	9,000 gp
Mantle of Spell Resistance	Spells	SR 21	90,000 gp
Mantle of Faith	Physical	DR 5/evil	76,000 gp

12. DIVINATION & KNOWLEDGE (8 items)

Item	Effect	Price
Gem of Seeing	True seeing 30 min/day	75,000 gp
Helm of Comprehend Languages	Comprehend languages + read magic continuously	5,200 gp
Helm of Telepathy	Detect thoughts at will, suggest 1/day	27,000 gp
Lens of Detection	+5 Search and Survival (tracking)	3,500 gp
Robe of Eyes	360° vision, see invisible, darkvision 120 ft	120,000 gp
Stone of Alarm	Mental alarm in 20-ft radius	2,700 gp

13. SPECIAL ROBES & VESTMENTS (7 items)

See **Body Items** section above for full details.

COMPLEXITY TIERS

TIER 1: Simple Passive (★) — ~45 items

Items that apply a static bonus with no activation or special mechanics.

Category	Items	Count
Ability Score +2	Gauntlets of Ogre Power, Gloves of Dex +2, Amulet of Health +2, Headband of Int +2, Periapt of Wis +2, Cloak of Cha +2	6
Ability Score +4	Belt of Giant Str +4, Gloves of Dex +4, Amulet of Health +4, Headband of Int +4, Periapt of Wis +4, Cloak of Cha +4	6
Ability Score +6	Belt of Giant Str +6, Gloves of Dex +6, Amulet of Health +6, Headband of Int +6, Periapt of Wis +6, Cloak of Cha +6	6
Resistance	Cloak of Resistance +1 to +5	5
Natural Armor	Amulet of Natural Armor +1 to +5	5
Bracers of Armor	Bracers of Armor +1 to +8	8
Skill Bonuses	Boots of Elvenkind, Cloak of Elvenkind, Eyes of the Eagle, Goggles of Minute Seeing, Goggles of Night, Circlet of Persuasion, Gloves of Swimming/Climbing, Lens of Detection, Vest of Escape	9
Misc Passive	Periapt of Health, Phylactery of Faithfulness, Horseshoes of Speed, Boots of Striding/Springing, Monk's Belt	5

Implementation Pattern:

```

class SimplePassiveItem:
    slot: EquipmentSlot
    bonus_type: BonusType # enhancement, competence, resistance, etc.
    bonus_target: str # ability score, save, skill, AC
    bonus_value: int
    # On equip: add bonus
    # On unequip: remove bonus

```

Estimated Time: 1-2 weeks

TIER 2: Active Single Ability (★★) — ~30 items

Items with a single activated ability, uses per day, or toggle on/off.

Category	Items	Count
At-Will Abilities	Hat of Disguise, Boots of Levitation, Slippers of Spider Climbing, Hand of the Mage, Robe of Blending	5
X/Day Abilities	Boots of Speed (10 rds), Winged Boots (3/day fly), Eyes of Charming (3/day charm), Horn of Goodness/ Evil (1/day)	4
Movement Modes	Wings of Flying, Cloak of Ethereality, Boots of Teleportation	3
Continuous Special	Cloak of Displacement Minor/Major, Helm of Comprehend Languages, Helm of Underwater Action, Necklace of Adaptation, Scarab of Protection, Brooch of Shielding	6
Consumable Single-Use	All Dusts, Elixirs, Feather Tokens, Candle of Truth, Incense of Meditation	12+

Implementation Pattern:

```
class ActiveItem:
    activation_type: str    # command_word, standard_action, free_action
    uses_per_day: int      # -1 = at will
    duration: Duration     # rounds, minutes, hours, continuous
    spell_effect: str      # underlying spell replicated
    # Activation tracking
    # Duration management
    # Reset on rest/day
```

Estimated Time: 2–3 weeks

TIER 3: Storage & Containers (★★★) — ~15 items

Items requiring inventory management sub-systems.

Item	Key Mechanic
Bag of Holding I-IV	Weight reduction, volume limit, extradimensional
Handy Haversack	Auto-retrieve, weight reduction
Efficient Quiver	Compartmented storage
Portable Hole	Large extradimensional space
Folding Boat	Transforms between objects
Bottle of Air	Unlimited resource generation
Decanter of Endless Water	Variable-rate resource generation
Eversmoking Bottle	Area effect toggle

Implementation Pattern:

```
class MagicContainer:
    weight_limit: float
    volume_limit: float # cubic feet
    actual_weight: float # weight when carried (reduced)
    contents: List[Item]
    is_extradimensional: bool
    # Extradimensional interaction rules
    # Weight/volume tracking
    # Retrieval mechanics
```

Estimated Time: 2 weeks

TIER 4: Combat & Summoning (★★★★★) — ~25 items

Items requiring combat system integration, creature summoning, and duration tracking.

Category	Items	Count
Necklace of Fireballs	Types I–VII (fireball beads)	7
Bag of Tricks	Gray, Rust, Tan (random animal summoning)	3
Elemental Gems	Air, Earth, Fire, Water (Large elemental summon)	4
Figurines of Wondrous Power	9 figurine types with usage tracking	9
Combat Misc	Bead of Force, Horn of Blasting, Iron Bands, Bracers of Archery, Gauntlet of Rust	5
Horn of Valhalla	Silver, Brass, Bronze, Iron (summon barbarians)	4

Implementation Requirements:

- Creature stat blocks for all summonable creatures
- Duration tracking (hours/day, hours/week, hours/month per figurine)
- Random table rolls (Bag of Tricks)
- AoE damage mechanics (Necklace of Fireballs)
- Grapple mechanics (Iron Bands of Binding)

Estimated Time: 3–4 weeks

TIER 5: Complex Multi-Ability (★★★★★) — ~15 items

Items with multiple interacting abilities, complex state, or requiring new subsystems.

Item	Complexity Reason
Robe of the Archmagi	AC + SR + saves + arcane failure reduction + alignment
Robe of Stars	Saves + force missiles + astral projection + limited patches
Robe of Useful Items	Random patch generation + multiple item creation
Robe of Bones	12 undead patches with individual creature stats
Robe of Eyes	Multiple vision modes + vulnerability
Cube of Force	6 modes + charge tracking + wall mechanics
Ioun Stones (16 types)	Slotless system + varied effects + physical targeting
Cloak of Arachnida	Spider climb + web immunity + web 1/day
Cloak of the Bat	Hide + fly + polymorph (conditional)
Helm of Telepathy	Detect thoughts + suggest + telepathic communication
Robe of Scintillating Colors	AoE save-or-daze + daily usage tracking
Carpet of Flying	Movement platform + weight capacity
Rope of Entanglement	Animated grapple mechanics

Estimated Time: 3-4 weeks

IMPLEMENTATION TIMELINE

PHASE 1: Foundation (2 weeks)

Goal: Build the wondrous item infrastructure.

Tasks:

1. Equipment Slot System Expansion

- Define all wondrous item slots: Feet, Shoulders, Hands, Head, Face, Throat, Waist, Arms, Torso
- Implement slot validation (only one item per slot)
- Handle slotless item management (no slot restriction)

1. Wondrous Item Base Class

```
WondrousItem extends MagicItem:
```

```

equipment_slot: EquipmentSlot | None
activation_type: ActivationType # continuous, command_word, use_activated, etc.
uses_per_day: int
charges: int | None
caster_level: int
aura_strength: AuraStrength
aura_school: MagicSchool
weight: float
body_text: str # description

```

2. Wondrous Item Factory

- Registration system for all wondrous item types
- Construction from database/configuration
- Variant handling (e.g., Cloak of Resistance +1 through +5 from single template)

3. Activation Framework

- Command word activation
- Use-activated (standard/move/free action)
- Continuous (always on when worn)
- Consumable (single-use then destroyed)
- Charges (track, decrement, destroy when empty)

4. Database Schema

```

sql
CREATE TABLE wondrous_items (
  id TEXT PRIMARY KEY,
  name TEXT NOT NULL,
  base_type TEXT NOT NULL,      -- e.g., 'cloak_of_resistance'
  variant TEXT,                 -- e.g., '+3'
  equipment_slot TEXT,          -- nullable for slotless
  price_gp INTEGER NOT NULL,
  caster_level INTEGER,
  aura_school TEXT,
  aura_strength TEXT,
  weight REAL,
  activation_type TEXT,
  uses_per_day INTEGER,
  charges INTEGER,
  description TEXT
);

```

Deliverables: Equipment slot system, WondrousItem base class, factory, database, activation framework.

PHASE 2: Ability Score Items (2 weeks)

Goal: Implement all 18 ability score enhancement items + 6 Ioun Stone ability variants.

Items (24 total):

- Gauntlets of Ogre Power, Belt of Giant Strength +4/+6
- Gloves of Dexterity +2/+4/+6

- Amulet of Health +2/+4/+6
- Headband of Intellect +2/+4/+6
- Periapt of Wisdom +2/+4/+6
- Cloak of Charisma +2/+4/+6
- Ioun Stones: Pale Blue Rhomboid, Deep Red Sphere, Pink Rhomboid, Scarlet and Blue Sphere, Incandescent Blue Sphere, Pink and Green Sphere

Implementation:

- `AbilityScoreEnhancementItem` template class
- Apply enhancement bonus on equip, remove on unequip
- Verify non-stacking of same-type bonuses
- Intelligence bonus: clarify no retroactive skill points

Tests:

- Equip/unequip changes ability score correctly
- Multiple enhancement bonuses to same ability → only highest applies
- Ability modifier recalculation on equip/unequip

PHASE 3: AC & Save Items (2 weeks)

Goal: Implement AC bonuses, save bonuses, and displacement mechanics.

Items (~20 variants):

- Amulet of Natural Armor +1 to +5
- Bracers of Armor +1 to +8
- Cloak of Resistance +1 to +5
- Cloak of Displacement Minor/Major
- Dusty Rose Prism Ioun Stone
- Scarab of Protection

Implementation:

- `NaturalArmorEnhancementItem` — adds enhancement bonus to natural armor
- `ArmorBonusItem` — adds armor bonus (doesn't stack with worn armor)
- `ResistanceBonusItem` — adds resistance bonus to all saves
- `DisplacementItem` — miss chance mechanic (20% or 50%)
- Bonus stacking rules enforcement

New Mechanics:

- Miss chance calculation (d% roll, 01-20 for minor, 01-50 for major)
- Displacement does NOT stack with other miss chance effects (best applies)

Tests:

- AC calculation with multiple bonus sources
- Resistance bonus stacking (only highest)
- Displacement miss chance resolution

PHASE 4: Movement Items (2 weeks)

Goal: Implement all movement-enhancing wondrous items.

Items (12):

- Boots of Elvenkind, Levitation, Speed, Striding/Springing, Teleportation, Winterlands
- Slippers of Spider Climbing
- Winged Boots
- Wings of Flying
- Carpet of Flying (3 sizes)
- Horseshoes of Speed/Zephyr

Implementation:

- Speed modification system (enhancement bonus to base speed)
- Flight mode: speed, maneuverability rating (perfect/good/average/poor/clumsy)
- Levitation: vertical movement only
- Spider climb: wall/ceiling movement at half speed
- Teleportation: spell-like effect with daily limit
- Haste: 10 rounds/day tracking (Boots of Speed)
- Mount-specific items (Horseshoes)

New Systems:

- Flight maneuverability system
- Teleportation mechanics (range, accuracy)
- Duration-per-day tracking (Boots of Speed: 10 rounds)
- Conditional movement bonuses (Boots of Winterlands: snow only)

Tests:

- Speed calculations with multiple bonuses
- Flight duration tracking
- Teleportation destination validation
- Haste round tracking and reset

PHASE 5: Stealth & Detection Items (2 weeks)

Goal: Implement stealth, detection, and vision items.

Items (~15):

- Boots of Elvenkind, Cloak of Elvenkind
- Dust of Appearance, Disappearance, Tracelessness
- Eyes of the Eagle
- Goggles of Night
- Hat of Disguise
- Robe of Blending
- Amulet of Proof Against Detection
- Lantern of Revealing

Implementation:

- Skill bonus items (competence bonuses to Hide, Move Silently, Spot, Search)
- Vision modes: Darkvision (distance), See Invisible, True Seeing
- Disguise mechanics (Disguise Self spell effect)
- Anti-divination ward
- Invisibility (greater invisibility from Dust of Disappearance)
- Reveal mechanics (Dust of Appearance, Lantern of Revealing)

Tests:

- Skill check modifications
- Darkvision range calculations
- Disguise/reveal interaction

PHASE 6: Storage Items (2 weeks)

Goal: Implement extradimensional storage and container system.

Items (~10):

- Bag of Holding Types I-IV
- Handy Haversack
- Efficient Quiver
- Portable Hole
- Folding Boat
- Decanter of Endless Water
- Eversmoking Bottle
- Bottle of Air

New Systems Required:**1. Container System**

```

MagicContainer:

weight\_limit: float (lbs)

volume\_limit: float (cu ft)

carried\_weight: float # actual weight of container when carried

is\_extradimensional: bool

contents: List[Item]

add\_item(item) → bool # false if over limit

remove\_item(item) → Item

get\_total\_weight() → float

get\_total\_volume() → float

```

2. Extradimensional Interaction Rules

- Bag of Holding + Bag of Holding → Astral rift (both destroyed)
- Bag of Holding + Portable Hole → gate to Astral Plane
- Must check on every insert operation

3. Retrieval Mechanics

- Handy Haversack: move action to retrieve (not standard action)
- Regular Bag of Holding: standard action to retrieve
- Efficient Quiver: move action for appropriate compartment

Tests:

- Weight/volume limit enforcement
- Actual carried weight calculation
- Extradimensional nesting detection and consequence
- Retrieval action economy

PHASE 7: Combat Items (3 weeks)

Goal: Implement offensive wondrous items.

Items (~15):

- Necklace of Fireballs Types I-VII
- Bead of Force
- Horn of Blasting
- Iron Bands of Binding
- Bracers of Archery (Lesser/Greater)
- Gauntlet of Rust
- Cube of Force

Implementation:

1. **Necklace of Fireballs:**

- Each type has a specific set of beads with damage dice
- Thrown as ranged touch attack (30 ft range increment)
- Reflex DC 14 for half damage
- If necklace is struck by fire damage while wearing → all remaining beads detonate on wearer
- Single-use beads (consumed on use)

2. **Bead of Force:**

- Thrown as ranged attack (range 60 ft)
- 5d6 force damage to target
- Creates resilient sphere around target (Reflex DC 16 negates)
- Single-use

3. **Horn of Blasting:**

- Cone attack (100-ft cone)
- 5d6 sonic damage
- Fort DC 16 or deafened 2d6 rounds
- Crystalline objects take 7d6
- 1/day, 20% chance of explosion if overused

4. **Iron Bands of Binding:**

- Ranged touch attack (60 ft)
- Target bound (AC 20, 20 HP, Break DC 30)
- 1/day

5. **Cube of Force:**

- 36 charges, regains 1d6/day
- 6 face modes with different costs per minute
- Wall of force mechanics around user
- Deactivation conditions per face

Tests:

- Fireball bead damage calculation and AoE
- Chain detonation on fire damage
- Cone attack targeting
- Binding grapple mechanics
- Cube charge tracking

PHASE 8: Summoning Items (3 weeks)

Goal: Implement creature-summoning items.

Items (~20 variants):

- Bag of Tricks (Gray, Rust, Tan)
- Elemental Gems (4 types)
- Figurines of Wondrous Power (9 types)
- Horn of Valhalla (Silver, Brass, Bronze, Iron)

New Systems Required:

1. Summoning System

```

```
SummonedCreature:
 creature_type: CreatureType
 stat_block: CreatureStats
 duration: Duration
 summoner: Character
 commands: List[Command] # what summoner can order
```

```
act(round) → Action
dismiss() → void
check_duration() → bool
```
```

2. Figurine Duration Tracking

- Each figurine has a maximum usage time per period
- Bronze Griffon: 6 hours/week
- Golden Lions: 1 hour/day
- Marble Elephant: 24 hours/month
- Must track across rests/sessions

3. Random Summoning Tables

- Bag of Tricks: d% roll → creature type
- Multiple creatures per bag type

4. Creature Stat Blocks Required:

- Gray Bag: Bat, Rat, Cat, Weasel, Riding Dog
- Rust Bag: Wolverine, Wolf, Boar, Panther, Giant Wasp
- Tan Bag: Brown Bear, Lion, Heavy Horse, Tiger, Rhinoceros
- Elementals: Large Air/Earth/Fire/Water Elemental
- Figurines: Griffon, Giant Fly, Lion, Goat (3 types), Elephant, Nightmare/Warhorse, Riding Dog, Giant Owl, Raven
- Valhalla: 2nd-5th level human barbarians

Tests:

- Random summoning table distribution
 - Duration tracking across time periods
 - Summoned creature actions and commands
 - Figurine recharge mechanics
-

PHASE 9: Ioun Stones (2 weeks)

Goal: Implement the complete Ioun Stone subsystem.

Items (16 types):

- See Ioun Stones table above

New Systems Required:

1. Slotless Orbiting System

- Stones orbit 1d3 feet from owner's head
- No equipment slot consumed
- Multiple stones can be active simultaneously
- Each type limited to one active stone
- Stones can be targeted (AC 24, 10 HP, hardness 5)
- Burned-out stones still orbit but have no effect

2. Spell Absorption Mechanics

- Pale Lavender Ellipsoid: absorbs spells of 4th level or lower, 20 total spell levels
- Lavender and Green Ellipsoid: absorbs spells of 8th level or lower, 50 total spell levels
- Once absorption capacity exhausted → becomes dull gray (burned out)

3. Spell Storage

- Vibrant Purple Prism: stores up to 3 spell levels (as ring of spell storing)
- Requires spellcaster to cast spell into stone
- Anyone can activate stored spells

Tests:

- Multiple Ioun Stone management
 - Bonus stacking with worn items
 - Spell absorption tracking
 - Targeting stones in combat (AC 24)
 - Burn-out tracking
-

PHASE 10: Special Robes & Complex Items (3 weeks)

Goal: Implement remaining complex multi-ability items.

Items (~15):

- Robe of the Archmagi
- Robe of Stars
- Robe of Useful Items
- Robe of Bones
- Robe of Scintillating Colors
- Cloak of Arachnida
- Cloak of the Bat
- Helm of Telepathy
- Rope of Entanglement
- Cube of Frost Resistance
- Mirror items (if in scope)

Implementation Highlights:

1. Robe of Useful Items:

- Random patch generation at creation
- Each patch detached → becomes real item
- One-time use per patch
- Need item creation system for detached patches

2. Robe of Bones:

- 12 undead figure patches
- Each becomes specific undead when detached
- Need undead stat blocks

3. Cloak of Arachnida:

- Continuous spider climb
- Immunity to web entanglement
- Web spell 1/day (DC 14)
- Three separate effects on one item

4. Helm of Telepathy:

- Detect thoughts at will (DC 13)
- Suggest 1/day on detected creature (DC 14)
- Telepathic communication (60 ft, shared language)

Tests:

- Multi-ability item activation
- Patch/component tracking (robes)
- Complex conditional effects (Cloak of the Bat)

Total Estimated Time: 23-25 weeks (5-6 months)

ITEM COUNT SUMMARY

By Price Category

Category	Price Range	Count
Minor	≤ 15,000 gp	~80 items
Medium	15,001-60,000 gp	~50 items
Total Minor+Medium	≤ 60,000 gp	~130 items

By Equipment Slot

Slot	Base Items	Including Variants
Feet (Boots)	8	8
Shoulders (Cloaks)	8	15+
Hands (Gloves)	5	7
Head (Headgear)	8	12+
Face (Eyes/Goggles)	5	5
Throat (Neck)	12	30+
Waist (Belt)	2	3
Arms (Bracers)	3	11+
Torso (Body/Robes)	8	8
Slotless	50+	60+
Total	~109	~160+

By Complexity Tier

Tier	Difficulty	Item Count	Est. Time
1 — Simple Passive	★	~45	1-2 weeks
2 — Active Single	★★	~30	2-3 weeks
3 — Storage	★★★	~15	2 weeks
4 — Combat/Summon	★★★★	~25	3-4 weeks
5 — Complex Multi	★★★★★	~15	3-4 weeks
Total		~130	23-25 weeks

NEW SYSTEMS REQUIRED

SYSTEM 1: Equipment Slot Expansion

Current slots (from Ring implementation):

- Ring (Left/Right)
- Held (MainHand/OffHand)

New slots needed:

Slot	D&D 3.5e Name	Items Using Slot
Feet	Boots/Footwear	8 items
Shoulders	Cloak/Cape	15+ items
Hands	Gloves/Gauntlets	7 items
Head	Headband/Helm/Hat	12+ items
Face	Eyes/Goggles/Lenses	5 items
Throat	Amulet/Necklace/Periapt	30+ items
Waist	Belt	3 items
Arms	Bracers/Armbands	11+ items
Torso	Robe/Vestment	8 items

Rules:

- Only ONE item per slot (except Ring which allows two)
- Slotless items bypass slot restrictions entirely
- Body slot (Torso) conflicts with worn armor in some interpretations — use DMG standard (separate slot)

Implementation:

```
class EquipmentSlot(Enum):
    HEAD = "head"
    FACE = "face"
    THROAT = "throat"
    SHOULDERS = "shoulders"
    TORSO = "torso"
    ARMS = "arms"
    HANDS = "hands"
    WAIST = "waist"
    FEET = "feet"
    RING_LEFT = "ring_left"
    RING_RIGHT = "ring_right"
    HELD_MAIN = "held_main"
    HELD_OFF = "held_off"
    SLOTLESS = None # No slot restriction
```

SYSTEM 2: Slotless Item Management

Challenge: Slotless items (60+ items) have no equipment slot restriction. A character can have multiple slotless items active simultaneously.

Items affected:

- Ioun Stones (16 types, multiple can orbit simultaneously)
- Pearls of Power (multiple pearls of different levels allowed)
- Bags of Holding, Haversack, Portable Hole
- All consumables (dusts, elixirs, feather tokens)
- Figurines of Wondrous Power
- Miscellaneous (candles, horns, pipes, ropes, etc.)

Implementation:

```

class SlotlessItemManager:
    active_items: List[WondrousItem]
    ioun_stones: List[IounStone] # Special subset

    add_item(item) → bool
    remove_item(item) → bool
    get_active_effects() → List[Effect]

    # Ioun Stones have special rules:
    # - Only one of each type
    # - Can be targeted individually
    # - Orbit visually

```

SYSTEM 3: Container System

Purpose: Manage magical containers with weight reduction, volume limits, and extradimensional spaces.

Core Features:

- Weight capacity and volume capacity tracking
- Carried weight reduction (bag weighs less than contents)
- Retrieval mechanics (action economy)
- Extradimensional space interaction rules
- Nested container detection and consequences

Data Model:

```

class MagicContainer:
    weight_limit: float # max weight of contents (lbs)
    volume_limit: float # max volume of contents (cu ft)
    carried_weight: float # weight of container when carried
    is_extradimensional: bool
    contents: List[Item]

    def add_item(self, item: Item) -> bool:
        if self._would_exceed_limits(item):
            return False
        if self.is_extradimensional and item.is_extradimensional:
            self._trigger_astral_rift()
            return False
        self.contents.append(item)
        return True

    def retrieve_item(self, item: Item) -> Tuple[Item, ActionCost]:
        # Haversack: move action
        # Bag of Holding: standard action
        pass

```

SYSTEM 4: Figurine Summoning System

Purpose: Handle transformation of figurines into creatures with duration tracking across time periods.

Core Features:

- Transform figurine → creature (standard action, command word)
- Duration tracking per usage period (hours/day, hours/week, hours/month)
- Creature stat blocks for all figurine forms
- Command/control mechanics
- Reversion to figurine form
- Cooldown between uses

Data Model:

```
class FigurineOfWondrousPower:
    figurine_type: FigurineType
    creature_form: CreatureStatBlock
    max_duration: Duration          # e.g., 6 hours
    usage_period: TimePeriod        # e.g., per week
    remaining_duration: Duration    # time left in current period
    is_active: bool
    cooldown: Duration              # time before can be used again after reverting

    def activate(self) -> Creature:
        if self.remaining_duration <= 0:
            return None
        self.is_active = True
        return self._create_creature()

    def deactivate(self):
        self.is_active = False
        # Start cooldown

    def tick(self, elapsed: Duration):
        if self.is_active:
            self.remaining_duration -= elapsed
```

SYSTEM 5: Displacement Mechanics

Purpose: Handle miss chance effects (blur, displacement, concealment).

Core Features:

- Percentile miss chance roll before attack roll
- Minor displacement: 20% miss chance
- Major displacement: 50% miss chance
- Does not stack with other miss chance effects (use highest)
- Negated by true seeing, see invisibility (for invisibility-based concealment)
- Displacement is NOT negated by see invisibility but IS negated by true seeing

Implementation:

```

class MissChanceEffect:
    chance: int # 20 or 50
    source: str # "displacement_minor", "displacement_major", "blur"
    negated_by: List[str] # ["true_seeing"]

    def resolve(self, attacker: Creature) -> bool:
        """Returns True if attack misses due to miss chance."""
        if any(attacker.has_effect(neg) for neg in self.negated_by):
            return False
        roll = random.randint(1, 100)
        return roll <= self.chance

```

SYSTEM 6: Charge Tracking System

Purpose: Track charges for items that have limited uses before depletion.

Items Using Charges:

- Cube of Force (36 charges, regain 1d6/day)
- Gem of Brightness (50 charges)
- Chime of Opening (10 charges)
- Brooch of Shielding (101 HP of absorption)
- Necklace of Fireballs (varies by type, single-use beads)

Implementation:

```

class ChargeTracker:
    max_charges: int
    current_charges: int
    recharge_rate: Optional[DiceRoll] # e.g., 1d6/day
    recharge_period: Optional[TimePeriod]
    destroy_on_empty: bool # True for most consumables

    def use_charges(self, amount: int) -> bool:
        if self.current_charges < amount:
            return False
        self.current_charges -= amount
        if self.current_charges <= 0 and self.destroy_on_empty:
            self._destroy_item()
        return True

    def recharge(self):
        if self.recharge_rate:
            gained = self.recharge_rate.roll()
            self.current_charges = min(self.max_charges, self.current_charges +
gained)

```

SYSTEM 7: Daily Use Tracking

Purpose: Track uses-per-day for activated items.

Items Using Daily Limits:

- Boots of Speed (10 rounds/day)
- Winged Boots (3 uses of 5 min/day)

- Eyes of Charming (3/day)
- Boots of Teleportation (3/day)
- Cloak of Etherealness (10 min total/day)
- Helm of Telepathy: Suggest (1/day)
- Horn of Goodness/Evil (1/day)

Implementation:

```
class DailyUseTracker:
    max_uses: int          # -1 for at-will
    uses_remaining: int
    duration_per_use: Optional[Duration] # e.g., 5 minutes for Winged Boots
    total_duration_remaining: Optional[Duration] # for items tracked by total time

    def can_use(self) -> bool:
        if self.max_uses == -1:
            return True
        return self.uses_remaining > 0

    def use(self) -> bool:
        if not self.can_use():
            return False
        self.uses_remaining -= 1
        return True

    def reset_daily(self):
        self.uses_remaining = self.max_uses
        if self.total_duration_remaining is not None:
            self.total_duration_remaining = self.max_total_duration
```

CROSS-REFERENCES WITH EXISTING SYSTEMS

Ring System Integration

- **Equipment slots:** Wondrous items use different slots than rings (no conflict)
- **Bonus stacking:** Same stacking rules apply — enhancement bonuses don't stack, different types do
- **Activation framework:** Rings already have command word / continuous / use-activated — reuse for wondrous items
- **Database:** Extend existing magic item tables

Rod System Integration

- **Held items:** Rods use Held slots, wondrous items use worn slots (no conflict)
- **Charge system:** Reuse Rod charge tracking for Cube of Force, Gem of Brightness, etc.
- **Daily use tracking:** Reuse any daily-use system from rods

Armor/Weapon System Integration

- **Bracers of Armor:** Armor bonus → same type as worn armor, doesn't stack
- **Amulet of Natural Armor:** Enhancement to natural armor → interacts with creature natural armor
- **Amulet of Mighty Fists:** Enhancement to unarmed/natural attacks → needs weapon system hooks

TESTING STRATEGY

Unit Tests (per item)

- Equip/unequip correctly applies/removes bonuses
- Bonus stacking rules enforced
- Activation cost (action economy) correct
- Duration tracking accurate
- Charge/use tracking accurate
- Slot conflict detection works

Integration Tests

- Multiple wondrous items worn simultaneously
- Wondrous items + rings + armor + weapons
- Extradimensional container interactions
- Summoned creature management
- Combat with displacement mechanics

Edge Cases

- Wearing two items that enhance same ability score
 - Placing Bag of Holding inside Portable Hole
 - Using Pearl of Power without having cast a spell
 - Ioun Stone targeted while multiple orbit
 - Figurine duration exhausted mid-combat
 - Cube of Force deactivation conditions
 - Necklace of Fireballs fire damage while wearing
-

RISK ASSESSMENT

Risk	Impact	Mitigation
Scope creep (130+ items)	High	Strict tier-based implementation, defer Major items
Summoning complexity	Medium	Simplified creature AI, predetermined actions
Container system edge cases	Medium	Extensive testing, clear rules documentation
Bonus stacking bugs	High	Centralized bonus management system, comprehensive tests
Equipment slot conflicts	Low	Clear slot validation, one-item-per-slot enforcement
Duration tracking across sessions	Medium	Persistent state, clear reset rules
Performance with many active effects	Medium	Efficient effect aggregation, lazy recalculation

APPENDIX: ITEMS DEFERRED TO MAJOR CATEGORY

The following items exceed 60,000 gp and are classified as Major items, deferred to a future implementation phase:

Item	Price	Reason for Deferral
Robe of the Archmagi	75,000 gp	Complex multi-ability, alignment-restricted
Robe of Eyes	120,000 gp	Multiple vision modes + vulnerability
Gem of Seeing	75,000 gp	True seeing mechanics
Helm of Teleportation	73,500 gp	Teleportation system
Helm of Brilliance	125,000 gp	Multiple gem-based spell effects
Mantle of Faith	76,000 gp	DR mechanics
Mantle of Spell Resistance	90,000 gp	SR mechanics
Pearl of Power (9th)	81,000 gp	High-level spell recall
Mirror of Life Trapping	200,000 gp	Complex trapping mechanics
Mirror of Mental Prowess	175,000 gp	Multiple divination abilities
Mirror of Opposition	92,000 gp	Creature duplication
Efreeti Bottle	145,000 gp	Wish mechanics
Iron Flask	170,000 gp	Outsider imprisonment
Well of Many Worlds	82,000 gp	Random planar travel
Stone of Controlling Earth Elementals	100,000 gp	Elemental control
Horn of Valhalla (Iron)	75,000 gp	High-level summoning
Bracers of Armor +8	64,000 gp	Edge case pricing

Note: Some items listed as Medium in the random generation tables may have variants that cross into Major pricing. Implementation should handle the Minor/Medium variants and note the Major variants for future work.

Document created: May 2026

Next steps: Begin Phase 1 (Foundation) after Rod implementation sprint.
