

D&D 3.5e Magic Rings — Comprehensive Implementation Plan

Source: DMG 3.5e pages 229-233 + SRD
Scope: Core rules ONLY (PHB/DMG/MM). No supplements.
Project: /home/ubuntu/dnd35prototype
Date: 2026-05-24

Executive Summary

This document catalogs **all 33 distinct magic rings** from the DMG 3.5e core rules (counting variants: 47 total ring items), categorizes them by implementation complexity, identifies required new systems, and provides a phased implementation roadmap.

Key Statistics

Metric	Value
Total distinct ring types	33
Total ring item variants	47 (counting +1 through +5, energy types, etc.)
Tier 1 (Simple)	14 rings
Tier 2 (Active)	9 rings
Tier 3 (Complex)	6 rings
Tier 4 (Legendary)	4 rings
Estimated total time	8-12 weeks
New systems required	4 major, 3 minor

Current Codebase Status

- ✓ **Ring equipment slots already exist** — EquipSlot.LeftRing , EquipSlot.RightRing , EquipSlot.EitherRing
- ✓ **Inventory slots wired** — Inventory.LeftRingSlot , Inventory.RightRingSlot
- ✓ **UI displays ring slots** — “L RING” and “R RING” in both InventoryUI and PreCombatInventoryUI
- ✓ **Spell effect ticking** — GameManager already ticks LeftRingSlot / RightRingSlot for item spell durations
- ✗ **No ring items registered** — ItemDatabase has zero ring entries
- ✗ **No ring stat effects** — RecalculateStats() ignores ring slots
- ✗ **No ring-specific ItemData fields** — No IsRing , RingType , etc.

✗ **No ring activation system** — No command word / use-activated ring framework

✗ **No RingFactory** — Unlike WandFactory/PotionFactory/ScrollFactory

Complete Ring Catalog (DMG 3.5e Core)

Ring #1: Ring of Protection (+1 to +5)

Property	Value
DMG Page	232
Type	Continuous passive
Complexity	★
Tier	1 — Foundation
Market Price	+1: 2,000 gp · +2: 8,000 gp · +3: 18,000 gp · +4: 32,000 gp · +5: 50,000 gp
Caster Level	5th
Aura	Faint abjuration
Variants	5 (+1 through +5)

Core Mechanics:

- Provides a **deflection bonus to AC** equal to the ring's bonus (+1 to +5)
- Continuous — always active while worn
- Deflection bonuses do NOT stack (highest wins)

Implementation Requirements:

- Add `DeflectionBonus` from ring to `RecalculateStats()`
- `CharacterStats.DeflectionBonus` already exists (used by Shield of Faith)
- Need to ensure ring deflection doesn't stack with spell deflection (take highest)

Testing Checklist:

- [] Ring equippable in either ring slot
- [] Deflection bonus appears in AC calculation
- [] Does NOT stack with Shield of Faith (take highest)
- [] Unequipping removes the bonus
- [] Two Protection rings — only one bonus applies (highest)
- [] All 5 variants (+1 through +5) work

Ring #2: Ring of Feather Falling

Property	Value
DMG Page	230
Type	Continuous passive (auto-activate)
Complexity	★
Tier	1 — Foundation
Market Price	2,200 gp
Caster Level	1st
Aura	Faint transmutation

Core Mechanics:

- Automatically activates Feather Fall when wearer falls more than 5 feet
- No action required — immediate response
- Continuous effect while worn

Implementation Requirements:

- Falling system not currently implemented in grid-based prototype
- Can register as a tag/flag on the character for future use
- Minimal immediate gameplay impact in current tactical grid

Testing Checklist:

- [] Ring equippable
 - [] Character gains “feather_falling” tag/flag
 - [] Flag removed on unequip
-

Ring #3: Ring of Sustenance

Property	Value
DMG Page	232
Type	Continuous passive
Complexity	★
Tier	1 — Foundation
Market Price	2,500 gp
Caster Level	5th
Aura	Faint conjuration

Core Mechanics:

- Wearer needs no food or water to survive
- Wearer needs only 2 hours of sleep per day (still needs 8 hours rest for spells)
- Must be worn for 1 full week before it takes effect

Implementation Requirements:

- No food/water/sleep system in current prototype
- Register as passive flag for future use

Testing Checklist:

- [] Ring equippable
 - [] Sustenance flag set
-

Ring #4: Ring of Swimming

Property	Value
DMG Page	232
Type	Continuous passive
Complexity	★
Tier	1 — Foundation
Market Price	2,500 gp (standard) · 10,000 gp (improved, +10)
Caster Level	2nd / 7th
Aura	Faint transmutation
Variants	2 (standard +5, improved +10)

Core Mechanics:

- Grants +5 competence bonus on Swim checks (standard)
- Grants +10 competence bonus on Swim checks (improved)

Implementation Requirements:

- Skill check system needs competence bonus support
- No Swim skill checks currently used in tactical combat
- Register as passive bonus for future use

Testing Checklist:

- [] Ring equippable
 - [] Swim bonus stored on character
-

Ring #5: Ring of Climbing

Property	Value
DMG Page	230
Type	Continuous passive
Complexity	★
Tier	1 — Foundation
Market Price	2,500 gp (standard) · 10,000 gp (improved, +10)
Caster Level	5th
Aura	Faint transmutation
Variants	2 (standard +5, improved +10)

Core Mechanics:

- Grants +5 competence bonus on Climb checks (standard)
- Grants +10 competence bonus on Climb checks (improved)

Implementation Requirements:

- Same as Swimming — skill bonus for future use
- No climbing in tactical grid currently

Testing Checklist:

- [] Ring equippable
 - [] Climb bonus stored on character
-

Ring #6: Ring of Jumping

Property	Value
DMG Page	231
Type	Continuous passive
Complexity	★
Tier	1 — Foundation
Market Price	2,500 gp (standard) · 10,000 gp (improved, +10)
Caster Level	2nd / 7th
Aura	Faint transmutation
Variants	2 (standard +5, improved +10)

Core Mechanics:

- Grants +5 competence bonus on Jump checks (standard)
- Grants +10 competence bonus on Jump checks (improved)

Implementation Requirements:

- Same as Swimming/Climbing — skill bonus for future use

Testing Checklist:

- [] Ring equippable
- [] Jump bonus stored on character

Ring #7: Ring of Mind Shielding

Property	Value
DMG Page	232
Type	Continuous passive
Complexity	★
Tier	1 — Foundation
Market Price	8,000 gp
Caster Level	3rd
Aura	Faint abjuration

Core Mechanics:

- Immune to Detect Thoughts
- Immune to Discern Lies
- Immune to any attempt to magically discern alignment

Implementation Requirements:

- Register as immunity flag
- Detect Thoughts and alignment detection spells check for this immunity

Testing Checklist:

- [] Ring equippable
- [] Mind shielding immunity flag set
- [] Detect Thoughts blocked (if implemented)

Ring #8: Ring of Force Shield

Property	Value
DMG Page	230
Type	Activated (free action toggle)
Complexity	★★★
Tier	1 — Foundation
Market Price	8,500 gp
Caster Level	9th
Aura	Moderate evocation

Core Mechanics:

- Generates a shield-sized wall of force when activated
- Provides +2 shield bonus to AC (as heavy shield)
- NO armor check penalty
- NO arcane spell failure chance
- Activated/deactivated as a free action
- Hand holding the ring is occupied (cannot hold items)

Implementation Requirements:

- Free action activation toggle
- Apply +2 shield bonus to AC when active
- Track activation state on the item
- Ensure no ACP/ASF from force shield

Testing Checklist:

- [] Ring equippable
- [] Activation provides +2 shield AC
- [] No ACP or ASF

- [] Deactivation removes bonus
- [] Shield bonus doesn't stack with equipped shield

Ring #9: Ring of Counterspells

Property	Value
DMG Page	230
Type	Charged (single spell storage)
Complexity	★★★★
Tier	3 — Complex
Market Price	4,000 gp
Caster Level	11th
Aura	Moderate evocation

Core Mechanics:

- Can store a single spell of 1st-6th level
- If that exact spell is cast on the wearer, it's automatically countered
- No action required — automatic
- Countered spell is consumed; ring can be reloaded

Implementation Requirements:

- Spell storage system (store one spell in the ring)
- Automatic counter-trigger when matching spell targets wearer
- UI to cast a spell into the ring
- Track stored spell ID on item

Testing Checklist:

- [] Can store a spell into ring
 - [] Stored spell auto-counters matching incoming spell
 - [] Counter consumes stored spell
 - [] Can reload with new spell
 - [] Only 1st-6th level spells storable
-

Ring #10: Ring of Ram

Property	Value
DMG Page	232
Type	Charged (50 charges, expendable)
Complexity	★★★★
Tier	2 — Active
Market Price	8,600 gp
Caster Level	9th
Aura	Moderate transmutation

Core Mechanics:

- 50 charges, non-rechargeable (becomes nonmagical when expended)
- Ranged touch attack, 50-ft max range, no range penalty
- 1 charge: 1d6 force damage + bull rush (Str 25, Large)
- 2 charges: 2d6 force damage + bull rush (Str 25 +1 bonus)
- 3 charges: 3d6 force damage + bull rush (Str 25 +2 bonus)
- Can also open doors (Str 25/27/29 for 1/2/3 charges)

Implementation Requirements:

- Charge tracking on ItemData (existing pattern from wands)
- Ranged touch attack resolution
- Bull rush mechanics
- Charge selection UI (1, 2, or 3 charges)
- Force damage type

Testing Checklist:

- [] Ring equippable
 - [] Can select 1/2/3 charges
 - [] Ranged touch attack rolls correctly
 - [] Damage scales with charges
 - [] Bull rush resolves
 - [] Charges deplete
 - [] Becomes nonmagical at 0 charges
-

Ring #11: Ring of Animal Friendship

Property	Value
DMG Page	229
Type	Spell-like (command word)
Complexity	★★
Tier	2 — Active
Market Price	10,800 gp
Caster Level	3rd
Aura	Faint enchantment

Core Mechanics:

- On command, casts Charm Animal on a target
- At will (no daily limit)
- Will save DC 11 negates

Implementation Requirements:

- Command word activation system
- Charm Animal spell effect (if not implemented)
- Standard action to activate

Testing Checklist:

- [] Ring equippable
 - [] Command activation works
 - [] Charm Animal effect applies to target
 - [] Will save offered
-

Ring #12: Ring of Energy Resistance (Minor/Major/Greater)

Property	Value
DMG Page	230
Type	Continuous passive
Complexity	★★
Tier	1 — Foundation
Market Price	Minor: 12,000 gp · Major: 28,000 gp · Greater: 44,000 gp
Caster Level	3rd / 7th / 11th
Aura	Faint/Moderate/Moderate abjuration
Variants	15 (3 tiers × 5 energy types: acid, cold, electricity, fire, sonic)

Core Mechanics:

- Absorbs first X points of damage per round from chosen energy type
- Minor: resistance 10
- Major: resistance 20
- Greater: resistance 30
- One energy type per ring (chosen at creation)
- Continuous while worn

Implementation Requirements:

- Energy resistance system already exists (`DamageResistances`)
- Add ring resistance entry on equip, remove on unequip
- Need to track which energy type this specific ring resists
- Custom ItemData field: `RingEnergyType` (acid/cold/electricity/fire/sonic)

Testing Checklist:

- [] Ring equippable
 - [] Correct energy type resistance applied
 - [] Resistance value correct (10/20/30)
 - [] Removed on unequip
 - [] Stacking rules enforced (doesn't stack with Resist Energy spell — highest wins)
-

Ring #13: Ring of Chameleon Power

Property	Value
DMG Page	230
Type	Continuous passive + command word active
Complexity	★★
Tier	2 — Active
Market Price	12,700 gp
Caster Level	3rd
Aura	Faint illusion

Core Mechanics:

- Passive: +10 competence bonus on Hide checks (free action to activate)
- Active: Can use Disguise Self at will (standard action)

Implementation Requirements:

- Hide/stealth bonus tracking
- Disguise Self spell integration
- Dual mode (passive + active)

Testing Checklist:

- [] Ring equippable
- [] +10 Hide bonus applies
- [] Disguise Self usable at will

Ring #14: Ring of X-Ray Vision

Property	Value
DMG Page	233
Type	Command word active
Complexity	★★
Tier	2 — Active
Market Price	25,000 gp
Caster Level	6th
Aura	Moderate divination

Core Mechanics:

- On command, see through solid matter (20-ft range)
- Penetrates: 1 ft stone, 1 inch metal, 3 ft wood/dirt
- Lead blocks vision
- **Drawback:** 1 point Constitution damage per minute after first 10 minutes/day

Implementation Requirements:

- Line of sight through walls (complex for grid system)
- Constitution damage tracking
- Timer for usage

Testing Checklist:

- [] Ring equippable
- [] Vision effect activates
- [] Constitution damage applies after 10 min

Ring #15: Ring of Blinking

Property	Value
DMG Page	229
Type	Command word active
Complexity	★★
Tier	2 — Active
Market Price	27,000 gp
Caster Level	7th
Aura	Moderate transmutation

Core Mechanics:

- On command, wearer blinks as per the Blink spell
- 50% miss chance against attacks
- 20% chance own attacks miss
- Can move through solid objects (50% chance of failure)

Implementation Requirements:

- Blink spell effect already exists
- Command word activation triggers spell effect
- Standard action to activate

Testing Checklist:

- [] Ring equippable
- [] Blink effect applies on command
- [] Miss chances correct

Ring #16: Ring of Invisibility

Property	Value
DMG Page	231
Type	Command word active
Complexity	★★★
Tier	2 — Active
Market Price	20,000 gp
Caster Level	3rd
Aura	Faint illusion

Core Mechanics:

- On command, wearer becomes invisible as per Invisibility spell
- Ends when wearer attacks or casts a spell
- At will (no daily limit)

Implementation Requirements:

- Invisibility spell effect already exists
- Command word activation → apply Invisibility
- Standard action to activate

Testing Checklist:

- [] Ring equippable
 - [] Invisibility applies on command
 - [] Breaks on attack/spell
 - [] Can reactivate
-

Ring #17: Ring of Wizardry (I, II, III, IV)

Property	Value
DMG Page	233
Type	Continuous passive
Complexity	★★★★
Tier	3 — Complex
Market Price	I: 20,000 gp · II: 40,000 gp · III: 70,000 gp · IV: 100,000 gp
Caster Level	11th / 14th / 17th / 20th
Aura	Moderate/Strong (varies) universal
Variants	4 (I through IV)

Core Mechanics:

- **Doubles** the arcane spellcaster's spells per day for a specific level
- Ring I: doubles 1st-level arcane spells
- Ring II: doubles 2nd-level arcane spells
- Ring III: doubles 3rd-level arcane spells
- Ring IV: doubles 4th-level arcane spells
- Only works for arcane spellcasters (Wizard, Sorcerer, Bard)
- Does NOT double bonus spells from high ability scores

Implementation Requirements:

- Hook into spell slot calculation
- Track which spell level is doubled
- Only apply to base arcane spell slots (not bonus slots)
- Restrict to arcane casters

Testing Checklist:

- [] Ring equippable only by arcane casters
 - [] Base spell slots doubled for correct level
 - [] Bonus slots NOT doubled
 - [] Removing ring removes extra slots
 - [] Cannot prepare/use spells beyond allotment after removal
-

Ring #18: Ring of Evasion

Property	Value
DMG Page	230
Type	Continuous passive
Complexity	★★★
Tier	1 — Foundation
Market Price	25,000 gp
Caster Level	7th
Aura	Moderate transmutation

Core Mechanics:

- Grants the Evasion ability continuously
- Successful Reflex save for half damage → take NO damage instead
- Does NOT stack with class-granted Evasion (already have it)
- Does NOT grant Improved Evasion

Implementation Requirements:

- Evasion system already exists on CharacterStats
- Set `HasEvasion = true` on equip, remove on unequip
- Need to check if character already has class Evasion (don't double-apply)

Testing Checklist:

- [] Ring equippable
 - [] Evasion applies (0 damage on successful Reflex save vs half)
 - [] Stacks correctly with existing class Evasion (no-op)
 - [] Removed on unequip
-

Ring #19: Ring of Spell Storing (Minor/Standard/Major)

Property	Value
DMG Page	232
Type	Spell storage + casting
Complexity	★★★★★
Tier	3 — Complex
Market Price	Minor: 18,000 gp · Standard: 50,000 gp · Major: 200,000 gp
Caster Level	5th / 9th / 17th
Aura	Moderate/Strong evocation
Variants	3 (Minor/Standard/Major)

Core Mechanics:

- Stores spells cast into it (up to capacity in total spell levels)
- Minor: up to 3 spell levels
- Standard: up to 5 spell levels
- Major: up to 10 spell levels
- Any creature wearing the ring can cast stored spells
- Spells use the original caster's level, save DC, etc.
- Reusable — can be refilled after spells are cast

Implementation Requirements:

- Spell storage data structure on ItemData
- UI to cast spells INTO the ring
- UI to cast spells FROM the ring
- Track caster level/DC per stored spell
- Spell level capacity enforcement

Testing Checklist:

- [] Can store spells up to capacity
 - [] Can cast stored spells
 - [] Correct caster level/DC used
 - [] Capacity correctly enforced
 - [] Can refill after use
-

Ring #20: Ring of Shooting Stars

Property	Value
DMG Page	232
Type	Daily use abilities (multiple)
Complexity	★★★★★
Tier	3 — Complex
Market Price	50,000 gp
Caster Level	12th
Aura	Strong evocation

Core Mechanics:

- Outdoors at night:

- Dancing Lights: 1/hour
- Light: 2/night
- Ball Lightning: 1/night (1-4 balls, 1d6-4d6 electricity each)
- Shooting Stars: 3/week (12 impact + 24 fire in 5-ft radius, Reflex DC 13)

- Indoors/Underground:

- Faerie Fire: 2/day
- Spark Shower: 1/day (2d8 or 4d8 vs metal-wearing)

Implementation Requirements:

- Daily/weekly use tracking
- Multiple ability modes
- Environment detection (outdoors vs indoors) — may simplify
- Ball Lightning targeting and damage
- Shooting Stars as ranged attack + AoE

Testing Checklist:

- [] All abilities function
 - [] Use limits track correctly
 - [] Damage calculations correct
-

Ring #21: Ring of Spell Turning

Property	Value
DMG Page	232
Type	Daily charges
Complexity	★★★★★
Tier	3 — Complex
Market Price	98,280 gp
Caster Level	13th
Aura	Strong abjuration

Core Mechanics:

- Up to three times per day, reflects 1d4+6 spell levels of spells back at caster
- Only affects spells that target the wearer (not AoE)
- If a spell is too high level for remaining capacity, it's split
- Resets daily

Implementation Requirements:

- Spell Turning spell effect already partially implemented
- Daily use counter (3/day)
- Spell level reflection tracking
- Split spell logic

Testing Checklist:

- [] Activates on incoming targeted spell
 - [] Reflects correct number of spell levels
 - [] Daily limit enforced
 - [] Split spell logic works
-

Ring #22: Ring of Telekinesis

Property	Value
DMG Page	232
Type	Spell-like (at will)
Complexity	★★★★
Tier	2 — Active
Market Price	75,000 gp
Caster Level	9th
Aura	Moderate transmutation

Core Mechanics:

- Use Telekinesis spell on command
- At will (no daily limit)
- Violent thrust, sustained force, or combat maneuver
- CL 9th for weight limits

Implementation Requirements:

- Telekinesis spell already implemented
- Command word activation → cast Telekinesis at CL 9

Testing Checklist:

- [] Ring equippable
 - [] Telekinesis activates on command
 - [] CL 9 used for effects
-

Ring #23: Ring of Regeneration

Property	Value
DMG Page	232
Type	Continuous passive
Complexity	★★★★
Tier	2 — Active
Market Price	90,000 gp
Caster Level	15th
Aura	Strong conjuration

Core Mechanics:

- Regenerate 1 hit point per round (fast healing 1)
- Lost body parts regrow in 1d6+1 days
- Does NOT prevent death from massive damage
- Does NOT protect against effects that don't deal HP damage

Implementation Requirements:

- Fast Healing per-round tracking in OnRoundStart
- Apply healing at start of wearer's turn
- Already similar to Regenerate spell mechanics

Testing Checklist:

- [] Ring equippable
 - [] 1 HP healed per round
 - [] Doesn't exceed max HP
 - [] Healing logged
-

Ring #24: Ring of Freedom of Movement

Property	Value
DMG Page	230
Type	Continuous passive
Complexity	★★★
Tier	1 — Foundation
Market Price	40,000 gp
Caster Level	7th
Aura	Moderate abjuration

Core Mechanics:

- Continuous Freedom of Movement effect
- Immune to entangle, slow, web, hold, paralysis
- Cannot be grappled
- Move normally in water
- No movement penalties

Implementation Requirements:

- Freedom of Movement spell effect already exists
- Apply as continuous buff on equip
- Check existing condition immunities

Testing Checklist:

- [] Ring equippable
 - [] Immune to movement-restricting effects
 - [] Cannot be grappled
 - [] Removed on unequip
-

Ring #25: Ring of Three Wishes

Property	Value
DMG Page	233
Type	Charged (3 uses, expendable)
Complexity	★★★★★★
Tier	4 — Legendary
Market Price	120,600 gp
Caster Level	20th
Aura	Strong universal

Core Mechanics:

- Contains 3 Wish spells
- Each use consumes one wish
- After all 3 wishes used, becomes nonmagical
- NO XP cost when cast from the ring
- Full Wish spell effect

Implementation Requirements:

- Wish spell system (WishExecutor + WishUI already exist!)
- Charge tracking (3 charges)
- Becomes nonmagical at 0 charges
- No XP cost override

Testing Checklist:

- [] Ring equippable
 - [] Can cast Wish (invokes WishUI)
 - [] Charges deplete
 - [] No XP cost
 - [] Becomes nonmagical at 0
-

Ring #26: Ring of Djinni Calling

Property	Value
DMG Page	230
Type	Summoning (1/day)
Complexity	★★★★★★
Tier	4 — Legendary
Market Price	125,000 gp
Caster Level	17th
Aura	Strong conjuration

Core Mechanics:

- Calls a specific djinni from Elemental Plane of Air
- Djinni appears next round, serves for up to 1 hour/day
- Djinni is a specific individual (not random)
- If the djinni is slain, ring becomes nonmagical and worthless
- Standard action to call

Implementation Requirements:

- Summoning system for named creature
- Djinni stat block (Monster Manual)
- Duration tracking (1 hour/day)
- Permanent death = ring destruction
- AI for summoned creature

Testing Checklist:

- [] Ring equippable
 - [] Djinni summoned on command
 - [] Duration tracked
 - [] Death destroys ring
 - [] Daily limit enforced
-

Ring #27: Ring of Elemental Command (Air)

Property	Value
DMG Page	230
Type	Multiple spell-like + passive
Complexity	★★★★★★
Tier	4 — Legendary
Market Price	200,000 gp
Caster Level	15th
Aura	Strong conjuration

Core Mechanics:

- Appears as Ring of Feather Falling until fully activated (slay air elemental)
- Common powers: Elementals can't attack within 5 ft, Charm Monster DC 17 on air elementals, +2 resistance save vs air creatures, +4 morale attack vs air creatures, bypass elemental DR
- Air-specific powers:
 - Feather Fall (unlimited, self)
 - Resist Energy (electricity) (unlimited, self)
 - Gust of Wind (2/day)
 - Wind Wall (unlimited)
 - Air Walk (1/day, self)
 - Chain Lightning (1/week)
- **Weakness:** -2 on saves vs earth-based effects

Implementation Requirements:

- Full elemental dominance system
- Multiple spell-like abilities with varied daily limits
- Activation condition tracking
- Elemental type detection

Testing Checklist:

- [] Initial appearance as Feather Falling ring
 - [] Full activation after elemental kill
 - [] All 6 spell-like abilities work
 - [] Elemental dominance bonuses apply
 - [] Earth weakness penalty applies
-

Ring #28: Ring of Elemental Command (Earth)

Property	Value
DMG Page	230
Type	Multiple spell-like + passive
Complexity	★★★★★★
Tier	4 — Legendary
Market Price	200,000 gp

Core Mechanics:

- Appears as Ring of Meld into Stone until activated
- Earth-specific powers:
 - Meld into Stone (unlimited, self)
 - Soften Earth and Stone (unlimited)
 - Stone Shape (2/day)
 - Stoneskin (1/week, self)
 - Passwall (2/week)
 - Wall of Stone (1/day)
- **Weakness:** -2 on saves vs air-based effects

Ring #29: Ring of Elemental Command (Fire)

Property	Value
DMG Page	231
Type	Multiple spell-like + passive
Complexity	★★★★★★
Tier	4 — Legendary
Market Price	200,000 gp

Core Mechanics:

- Appears as Major Ring of Energy Resistance (Fire) until activated
- Fire-specific powers:
 - Resist Energy, Fire (as major ring = 20)
 - Burning Hands (unlimited)
 - Flaming Sphere (2/day)
 - Pyrotechnics (2/day)
 - Wall of Fire (1/day)

- Flame Strike (2/week)
- **Weakness:** -2 on saves vs water-based effects

Ring #30: Ring of Elemental Command (Water)

Property	Value
DMG Page	231
Type	Multiple spell-like + passive
Complexity	★★★★★★
Tier	4 — Legendary
Market Price	200,000 gp

Core Mechanics:

- Appears as Ring of Water Walking until activated
- Water-specific powers:
- Water Walk (unlimited)
- Create Water (unlimited)
- Water Breathing (unlimited)
- Wall of Ice (1/day)
- Ice Storm (2/week)
- Control Water (2/week)
- **Weakness:** -2 on saves vs fire-based effects

Ring #31: Ring of Water Walking

Property	Value
DMG Page	233
Type	Continuous passive
Complexity	★
Tier	1 — Foundation
Market Price	15,000 gp
Caster Level	9th
Aura	Moderate transmutation

Core Mechanics:

- Walk on water as per Water Walk spell
- Continuous while worn

Implementation Requirements:

- No water terrain in current prototype
- Register as passive flag

Ring #32: Ring of Meld into Stone

Property	Value
DMG Page	231
Type	Spell-like (command word)
Complexity	★★★
Tier	2 — Active
Market Price	27,000 gp
Caster Level	5th
Aura	Faint transmutation

Core Mechanics:

- Use Meld into Stone spell on command
- At will (no daily limit)

Implementation Requirements:

- Meld into Stone spell not implemented
- Low priority for tactical grid combat

Ring #33: Ring of Friend Shield

Property	Value
DMG Page	230
Type	Paired item, spell-like
Complexity	★★★★
Tier	3 — Complex
Market Price	50,000 gp (for the pair)
Caster Level	10th
Aura	Moderate abjuration

Core Mechanics:

- Always comes in a pair
- Either wearer can activate Shield Other on the other wearer
- No range limitation
- Standard action to activate

Implementation Requirements:

- Paired item system
- Shield Other spell integration
- Track which ring is paired with which

Implementation Tiers Summary

TIER 1: Foundation — Simple Passive Rings (14 rings)

These rings provide continuous bonuses and require minimal new systems.

Ring	Complexity	Priority	Impact Score
Ring of Protection +1-+5	★	HIGH	25
Ring of Energy Resistance (minor/major/greater)	★★★	HIGH	20
Ring of Evasion	★★★	HIGH	20
Ring of Freedom of Movement	★★★	HIGH	20
Ring of Force Shield	★★★	HIGH	16
Ring of Mind Shielding	★	Medium	15
Ring of Feather Falling	★	Medium	10
Ring of Sustenance	★	Low	5
Ring of Climbing (+5/+10)	★	Low	5
Ring of Swimming (+5/+10)	★	Low	5
Ring of Jumping (+5/+10)	★	Low	5
Ring of Water Walking	★	Low	5
Ring of Warmth	★	Low	5

Est. Time: 1-2 weeks

Dependencies: Ring framework, RecalculateStats integration, ItemData ring fields

TIER 2: Active Abilities — Spell-Like Rings (9 rings)

These rings cast spells or provide active abilities, requiring command word activation.

Ring	Complexity	Priority	Impact Score
Ring of Invisibility	★★	HIGH	16
Ring of Blinking	★★	HIGH	16
Ring of Telekinesis	★★★★	HIGH	12
Ring of Regeneration	★★★★	Medium	12
Ring of Ram	★★★★	Medium	12
Ring of Animal Friendship	★★	Medium	8
Ring of Chameleon Power	★★	Medium	8
Ring of X-Ray Vision	★★	Low	8
Ring of Meld into Stone	★★	Low	4

Est. Time: 1–2 weeks

Dependencies: Command word activation system, relevant spells implemented

TIER 3: Complex Mechanics (6 rings)

These rings require new subsystems for spell storage, countering, or daily power tracking.

Ring	Complexity	Priority	Impact Score
Ring of Wizardry I–IV	★★★★	HIGH	12
Ring of Counterspells	★★★★	Medium	9
Ring of Spell Storing (minor/std/major)	★★★★★	Medium	8
Ring of Spell Turning	★★★★★	Medium	8
Ring of Shooting Stars	★★★★★	Low	4
Ring of Friend Shield	★★★★	Low	6

Est. Time: 2–3 weeks

Dependencies: Spell slot system modification, spell storage system, daily use tracking

TIER 4: Legendary Rings (4 rings)

The most powerful and complex rings requiring multiple new systems.

Ring	Complexity	Priority	Impact Score
Ring of Three Wishes	★★★★★	Medium	5
Ring of Djinni Calling	★★★★★	Low	5
Ring of Elemental Command (×4)	★★★★★	Low	5

Est. Time: 2–3 weeks

Dependencies: Wish system (exists!), summoning system, elemental dominance system

Implementation Roadmap

Phase 1: Ring Foundation (Week 1-2)

Goal: Get any ring working in the game.

1. Ring Framework (2–3 days)

- Add `IsRing` bool + `RingId` string + `RingBonusValue` int to `ItemData`
- Create `RingFactory.cs` — generates `ItemData` for each ring type
- Create `RingDatabase.cs` — registry of all ring definitions (like `StaffDatabase`)
- Add ring equip/unequip hooks in `Inventory.RecalculateStats()`
- Add `RingEffectType` enum (Passive, CommandWord, Charged, SpellStorage)

2. Simple Passive Rings (2–3 days)

- Ring of Protection +1 through +5
- Ring of Energy Resistance (all 15 variants)
- Ring of Evasion
- Ring of Freedom of Movement
- Ring of Force Shield

3. Placeholder Rings (1 day)

- Create all remaining rings as `ItemData` entries with descriptive tooltips
- Mark unimplemented abilities as stubs (like staff system)

Phase 2: Active Rings (Week 3-4)

Goal: Rings that cast spells or grant abilities.

1. Command Word Activation System (2 days)

- “Use Ring” action in combat UI
- Standard action consumption
- Ring-specific activation UI

2. Spell-Like Rings (3–4 days)

- Ring of Invisibility (cast `Invisibility`)
- Ring of Blinking (cast `Blink`)
- Ring of Telekinesis (cast `Telekinesis`)
- Ring of Animal Friendship (cast `Charm Animal`)
- Ring of Chameleon Power (+10 `Hide` + `Disguise Self`)

3. **Charged Rings** (2–3 days)

- Ring of Ram (50 charges, ranged force + bull rush)
- Ring of Regeneration (1 HP/round — fast healing)

Phase 3: Complex Rings (Week 5-7)

Goal: Rings requiring new subsystems.

1. **Spell Slot Doubling** (3 days)

- Ring of Wizardry I-IV
- Hook into spell preparation/slot system
- Only affects arcane base slots

2. **Spell Storage System** (4–5 days)

- Ring of Spell Storing (minor/standard/major)
- UI to store spells into ring
- UI to cast from ring
- Capacity tracking

3. **Counter/Turning Systems** (3–4 days)

- Ring of Counterspells (store + auto-counter)
- Ring of Spell Turning (daily reflection)

4. **Multi-Ability Rings** (2–3 days)

- Ring of Shooting Stars (daily abilities)
- Ring of Friend Shield (paired ring)

Phase 4: Legendary Rings (Week 8-10)

Goal: Most powerful rings with complex interactions.

1. **Ring of Three Wishes** (2 days)

- Leverage existing WishExecutor + WishUI
- 3 charges, no XP cost
- Becomes nonmagical at 0

2. **Ring of Djinni Calling** (4–5 days)

- Summoning system for named creature
- Djinni stat block
- Duration tracking
- Death = ring destruction

3. **Rings of Elemental Command** (5–7 days)

- 4 variants with shared framework
 - Activation condition (slay elemental)
 - Multiple spell-like abilities with varied limits
 - Elemental dominance bonuses
 - Opposing element weakness
-

Dependency Tree

```

Ring Equipment Framework (Foundation – REQUIRED FIRST)
├─ ItemData: IsRing, RingId, RingBonusValue, RingEffectType
├─ RingDatabase.cs (all ring definitions)
├─ RingFactory.cs (item generation)
├─ Inventory.RecalculateStats() ring processing
├─ UI: ring equip/unequip in PreCombatInventoryUI
├─ Passive Bonus Rings (Tier 1)
│   ├── Ring of Protection (uses existing DeflectionBonus)
│   ├── Ring of Energy Resistance (uses existing DamageResistances)
│   ├── Ring of Evasion (uses existing HasEvasion)
│   ├── Ring of Freedom of Movement (uses existing FoM effect)
│   └─ Ring of Force Shield (toggle shield bonus)
├─ Command Word Activation System
│   ├── Spell-Like Rings (Tier 2)
│   │   ├── Ring of Invisibility (needs Invisibility spell ✓)
│   │   ├── Ring of Blinking (needs Blink spell ✓)
│   │   ├── Ring of Telekinesis (needs Telekinesis spell ✓)
│   │   └─ Ring of Animal Friendship (needs Charm Animal)
│   └─ Charged Rings (Tier 2)
│       ├── Ring of Ram (needs ranged touch + bull rush)
│       └─ Ring of Three Wishes (needs Wish ✓)
├─ Spell Slot Modification System
│   └─ Ring of Wizardry I–IV (Tier 3)
├─ Spell Storage System
│   ├── Ring of Spell Storing (Tier 3)
│   └─ Ring of Counterspells (Tier 3)
├─ Daily Use Tracking System
│   ├── Ring of Spell Turning (Tier 3)
│   └─ Ring of Shooting Stars (Tier 3)
└─ Summoning + Elemental Dominance Systems
    ├── Ring of Djinni Calling (Tier 4)
    └─ Ring of Elemental Command ×4 (Tier 4)
  
```

Existing System Compatibility

System	Status	Rings That Use It
DeflectionBonus (AC)	✓ Exists	Ring of Protection
DamageResistances	✓ Exists	Ring of Energy Resistance
HasEvasion	✓ Exists	Ring of Evasion
Freedom of Movement	✓ Exists	Ring of Freedom of Movement
Invisibility spell	✓ Exists	Ring of Invisibility
Blink spell	✓ Exists	Ring of Blinking
Telekinesis spell	✓ Exists	Ring of Telekinesis
Wish system	✓ Exists	Ring of Three Wishes
Spell Turning spell	✓ Exists	Ring of Spell Turning
Wand charge system	✓ Exists (template)	Ring of Ram
Staff charge system	✓ Exists (template)	Ring of Three Wishes
Spell slot system	✓ Exists	Ring of Wizardry
Summoning system	✗ Needed	Ring of Djinni Calling
Elemental dominance	✗ Needed	Ring of Elemental Command
Command word UI	✗ Needed	All active rings
Spell storage UI	✗ Needed	Ring of Spell Storing, Counterspells
Ring-specific RecalcStats	✗ Needed	All passive rings
