

Sprint 2: Active Ability Rings — Quick Reference Card

9 rings | Command word activation | Daily/Weekly/Charge tracking

Rules: Core D&D 3.5e only (PHB/DMG/MM)

Ring Summary Table

#	Ring	Price	Activa- tion	Fre- quency	Key Effect	Action
1	Invisibil- ity	20,000 gp	Command	At will	Invisibility 30 rounds (CL 3)	Standard
2	Blinking	27,000 gp	Command	At will	Blink 7 rounds (CL 7)	Standard
3	Animal Friend- ship	10,800 gp	Command	3/day	Charm An- imal DC 11, ≤12 HD total	Standard
4	Ram	8,600 gp	Command	50 charges (regen 1d10/day)	1-3 charges: 1d6/charge force + bull rush Str 25	Standard
5	Telekines- is	75,000 gp	Command	At will	Telekinesis — 3 modes (CL 9)	Standard
6	X-Ray Vis- ion	25,000 gp	Command	At will (Con penalty)	See through barriers 20 ft, 10 rounds	Standard
7	Shooting Stars	50,000 gp	Command	Mixed (see below)	5 abilities (CL 12)	Standard
8	Spell Turning	98,280 gp	Automatic	1d4+6 levels/rest	Reflects targeted spells	None
9	Djinni Calling	125,000 gp	Command	1/week	Summon Noble Djinni 1 hour	Full-round

Frequency Systems

At Will (no tracking)

- Invisibility, Blinking, Telekinesis, X-Ray Vision*, Light, Dancing Lights

Daily Uses (reset on rest)

Ring	Ability	Uses/Day
Animal Friendship	Charm Animal	3
Shooting Stars	Ball Lightning	1
Shooting Stars	Faerie Fire	2

Weekly Uses (reset every 7th rest)

Ring	Ability	Uses/Week
Djinni Calling	Summon Djinni	1
Shooting Stars	Shooting Stars	3

Charge-Based (regenerates on rest)

Ring	Max	Regen/Day	Cost/Use
Ram	50	1d10	1-3 per activation

Pool-Based (refreshes on rest)

Ring	Pool Size	Depletes By
Spell Turning	1d4+6 levels	Reflecting spells (level-for-level)

*X-Ray Vision: at will but 1 Con damage per use after first per rest

Shooting Stars — 5 Abilities Detail

Ability	Freq	Restriction	Effect
Light	At will	None	As Light spell, 120 min
Dancing Lights	At will	Outdoors, night	As Dancing Lights, 10 rounds
Faerie Fire	2/day	None	Outline targets, -20 Hide, reveal invisible
Ball Lightning	1/day	None	1-4 balls: 4d6/3d6/2d6/1d6+1 each, Ref DC 13
Shooting Stars	3/week	Outdoors, night	1-3 stars: 12 fire dmg each, 5-ft burst, Ref DC 13

Noble Djinni Stats (MM p.114)

Stat	Value
HP	45 (7d8+14)
AC	16 (touch 12, FF 13)
Attacks	2 slams +10 (1d8+6)
Saves	Fort +7, Ref +8, Will +7
Abilities	Str 18, Dex 17, Con 14, Int 14, Wis 15, Cha 15
Speed	20 ft, fly 60 ft (perfect)
Immunities	Acid
Special	If slain, ring becomes permanently inert

New Systems Needed

System	Purpose	Integration Point
TryUseRing()	Ring activation routing	<code>GameManager.cs:~5407</code> (item use switch)
Daily use tracking	3/day, 2/day, 1/day limits	<code>ItemData</code> fields + rest handler reset
Weekly use tracking	1/week, 3/week limits	<code>ItemData</code> fields + 7-rest counter
Charge system	50 charges, regen 1d10/day	<code>ItemData</code> fields + rest handler regen
RingAbilitySelectionPanel	Multi-ability UI	New panel (clone <code>StaffSpellSelectionPanel</code>)
Charm Animal	New spell effect	Team change + status effect
Force Bolt	Ram ranged touch + bull rush	New combat effect
Noble Djinni	Creature definition	Add to <code>NPCDatabase</code>
Equip-triggered effect	Spell Turning on equip	Inventory equip handler

Key Existing Code to Reuse

What	Where	Used By
<code>ApplyInvisibilityEffect()</code>	<code>CharacterController.cs:1708</code>	Ring of Invisibility
<code>HasActiveBlinkEffect</code>	<code>CharacterController.cs:1583</code>	Ring of Blinking
<code>ApplySpellTurningEffect()</code>	<code>GameManager_Spells_Phase2.cs:392</code>	Ring of Spell Turning
<code>SpawnSummonedCreature()</code>	<code>GameManager.SpellCasting.cs:228</code>	Ring of Djinni Calling
<code>CanUseItemManipulationAction()</code>	<code>GameManager.cs:4322</code>	All active rings
<code>TryUseStaff()</code> pattern	<code>GameManager.cs:5792</code>	Template for <code>TryUseRing</code>
Rest handler	<code>GameManager.cs:935</code>	Daily/weekly/charge resets

New Files to Create

File	Lines	Purpose
GameManager_Rings.cs	~500	All 9 ring activation handlers (partial class)
RingAbilitySelectionPanel.cs	~100	UI panel for multi-ability rings
RingAbilityOption.cs	~25	Data class for panel options

Implementation Priority (if time-constrained)

1. ⚡ Core infrastructure (activation + tracking)
 2. 🟢 Ring of Invisibility (simplest, validates system)
 3. 🟢 Ring of Blinking (same pattern)
 4. 🟡 Ring of the Ram (validates charges)
 5. 🟡 Ring of Animal Friendship (validates daily uses)
 6. 🟡 Ring of Spell Turning (validates equip-trigger)
 7. 🟠 Ring of Telekinesis (moderate)
 8. 🟠 Ring of Djinni Calling (validates weekly + summoning)
 9. 🔴 Ring of X-Ray Vision (least combat impact)
 10. 🔴 Ring of Shooting Stars (most complex, do last)
-

Estimated Effort: 15-20 days total

Phase	Days	Scope
Infrastructure	1-4	Activation, tracking, UI panel
Simple rings	5-7	Invisibility, Blinking, Telekinesis
Moderate rings	8-12	Animal Friendship, Ram, Spell Turning
Complex rings	13-18	X-Ray Vision, Shooting Stars, Djinni Calling
Polish & testing	19-20	Integration, edge cases, regression
