

Undead Creatures by Intelligence Category

Purpose: Categorize all implemented undead by Intelligence and Wisdom scores to design appropriate AI behaviors — mindless undead shamle and attack, while intelligent undead use tactics, spells, and special abilities strategically.

Mindless (INT — (No Score))

No intelligence at all. Operates on pure necromantic animation. Cannot think, plan, or adapt.
Attacks nearest target, no tactical awareness.

Standard Undead

Name	CR	INT	WIS	AI Profile	AI Behavior	Notable Abilities
Skeleton Archer	—	—	10	Undead-Mindless	RangedKiter	—
Skeleton Warrior	—	—	10	Undead-Mindless	DefensiveMelee	—
Zombie	—	—	10	Undead-Mindless	—	—

Recommended AI Behavior for Mindless Undead

- **Target Selection:** Attack nearest enemy; no prioritization
- **Movement:** Move directly toward closest target (no flanking, no tactical positioning)
- **Special Abilities:** Used automatically (e.g., slam attack) — no decision-making
- **Retreat:** Never retreats — fights until destroyed
- **Group Tactics:** None — each creature acts independently
- **Zombies:** Single standard action per round (move OR attack, not both)
- **Skeletons:** Can take full actions; benefit from Improved Initiative

Low Intelligence (INT 3-6)

Simple tactics. Can follow basic orders, use simple weapons, and recognize obvious threats. Limited problem-solving.

Name	CR	INT	WIS	AI Profile	AI Behavior	Notable Abilities
Shadow	3	6	12	Humanoid	—	Incorporeal, Turn Resistance +2
Mummy	5	6	14	Humanoid	—	Disease, Despair, Mummy Rot
Bodak	8	6	12	Humanoid	—	Death Gaze
Greater Shadow	8	6	12	Humanoid	—	Incorporeal, Create Spawn, Turn Resistance +2

Recommended AI Behavior for Low Intelligence Undead

- **Target Selection:** Prefer wounded or isolated targets
- **Movement:** Basic tactical positioning; may circle around obstacles
- **Special Abilities:** Used with basic awareness (e.g., Death Gaze against visible targets)
- **Retreat:** May withdraw if severely damaged (< 25% HP)
- **Group Tactics:** Basic swarming — multiple creatures focus same target

Average Intelligence (INT 7-12)

Human-like reasoning. Can use tactics, set ambushes, coordinate with allies, and make situational decisions.

Name	CR	INT	WIS	AI Profile	AI Behavior	Notable Abilities
Allip	3	11	11	Humanoid	—	Incorporeal
Wight	3	11	13	Undead	—	Energy Drain, Create Spawn
Ghost	7	12	14	Humanoid	—	Incorporeal, Energy Drain, Manifestation, Frightful Moan, Corrupting Touch, Rejuvenation, Turn Resistance +4
Mohrg	8	11	10	Grappler	—	Improved Grab, Paralysis, Create Spawn
Wight Dreadwalker	—	11	13	Humanoid	—	Energy Drain, Create Spawn

Recommended AI Behavior for Average Intelligence Undead

- **Target Selection:** Prioritize spellcasters and weakened enemies
- **Movement:** Seek flanking positions; avoid AoOs when possible
- **Special Abilities:** Tactical use — Energy Drain on high-value targets, Create Spawn on isolated enemies
- **Retreat:** Will retreat to reposition or lure enemies into traps
- **Group Tactics:** Coordinate attacks; one grapples while others attack

High Intelligence (INT 13-18)

Very smart. Uses advanced tactics, leverages special abilities strategically, and can plan multi-step approaches.

Name	CR	INT	WIS	AI Profile	AI Behavior	Notable Abilities
Ghoul	1	13	14	Humanoid	—	Paralysis, Disease, Turn Resistance +2
Ghast	3	13	14	Humanoid	—	Paralysis, Disease, Stench, Turn Resistance +2
Vampire Spawn	4	13	13	Humanoid	—	Energy Drain, Dominate, Blood Drain, Turn Resistance +2
Wraith	5	14	14	Humanoid	—	Incorporeal, Energy Drain, Create Spawn
Spectre	7	14	14	Humanoid	—	Incorporeal, Energy Drain, Create Spawn, Turn Resistance +2

Recommended AI Behavior for High Intelligence Undead

- **Target Selection:** Analyze party composition; prioritize healers, then casters, then martial
 - **Movement:** Sophisticated positioning; use incorporeal movement through walls
 - **Special Abilities:** Strategic use — Energy Drain to weaken before killing, Dominate on key targets
 - **Retreat:** Will retreat strategically; use hit-and-run tactics
 - **Group Tactics:** Coordinate with other undead; use minions as shields

Recommended AI Profile Assignments

Based on this analysis, the following AI profile assignments are recommended:

Undead	Current Profile	Recommended Profile	Reason
All Zombies	UndeadMindless	✓ UndeadMindless	Correct — mindless, single action only
All Skeletons	UndeadMindless	✓ UndeadMindless	Correct — mindless but full actions
Shadow	Humanoid	↻ UndeadIncorporeal	Needs incorporeal movement AI + Strength damage targeting
Greater Shadow	Humanoid	↻ UndeadIncorporeal	Needs incorporeal movement AI + Create Spawn awareness
Allip	Humanoid	↻ UndeadIncorporeal	Incorporeal; babble ability needs AoE positioning
Wraith	Humanoid	↻ UndeadIncorporeal	Incorporeal + Energy Drain + Create Spawn
Spectre	Humanoid	↻ UndeadIncorporeal	Incorporeal + Energy Drain; high INT needs tactics
Ghost	Humanoid	↻ UndeadIncorporeal	Incorporeal with multiple special attacks; needs complex AI
Ghoul	Humanoid	↻ UndeadTactical	High INT; should cycle paralysis between targets
Ghast	Humanoid	↻ UndeadTactical	High INT; paralysis + stench aura positioning
Wight	Undead	↻ UndeadTactical	Average INT; Energy Drain + Create Spawn tactics
Wight Dreadwalker	Humanoid	↻ UndeadTactical	Enhanced wight; needs coordinated Energy Drain

Undead	Current Profile	Recommended Profile	Reason
Vampire Spawn	Humanoid	 UndeadTactical	High INT; Dominate + Blood Drain combo
Mummy	Humanoid	 UndeadBrute	Low INT but tough; Despair aura + Mummy Rot
Bodak	Humanoid	 UndeadBrute	Low INT; Death Gaze needs facing/positioning
Mohrg	Grappler	 Grapppler	Correct — Improved Grab into tongue paralysis

New AI Profiles Needed

UndeadMindless (Exists)

- Already implemented for zombies and skeletons
- Attack nearest target, no tactics, no retreat
- Zombies: single action restriction

UndeadIncorporeal (New)

- For: Shadow, Greater Shadow, Allip, Wraith, Spectre, Ghost
- Key behaviors:
- Move through walls to reach isolated targets
- Retreat into solid objects when damaged
- Prefer targets vulnerable to touch attacks
- Use Create Spawn awareness (avoid overkilling when spawn would be useful)
- Strength Damage users: target STR-dependent characters
- Energy Drain users: prioritize high-level targets

UndeadTactical (New)

- For: Ghoul, Ghast, Wight, Wight Dreadwalker, Vampire Spawn
- Key behaviors:
- Cycle paralysis attacks between multiple targets
- Ghast: position for stench aura to affect multiple enemies
- Energy Drain users: focus drain on key party members
- Vampire Spawn: attempt Dominate before melee engagement
- Coordinate with pack — one paralyzes, others attack paralyzed targets
- Coup de grâce paralyzed/helpless enemies

UndeadBrute (New)

- For: Mummy, Bodak

- Key behaviors:
- Mummy: advance into melee, let Despair aura trigger, then slam for Mummy Rot
- Bodak: position for Death Gaze to hit multiple targets per round
- Low INT limits tactical complexity — straightforward but effective
- Do not retreat; rely on DR and turn resistance for survival
